CALCUTTA KALENDAR

FOR THE YEAR

1824.

Table of Contents.

The New Annual Bengal Directory is divided into Two Portions: THE DIRECTORY and THE APPENDIX; each Portion consists of Six Parts, the titles of which are given in the preceding Page; one set of numbers only is employed, which run on uninterruptedly throughout the Work; THE REGULATIONS and all INFORMATION connected with the different portions of the Directory are collected together and immediately follow the List to which they belong: An INDEXES TO NAMES are placed at the end of the Book, for more convenient reference and as each part has a running head, the Publishers hope the Public will find that the slightest chance of confusion has been guarded against. A perusal of the foregoing directions and the following Table of Contents, will put the Reader in full possession of the order of arrangement of this publication.

A Map of Hindoostan.

This MAP has been compiled from the best authorities at very considerable trouble and expence, expressly for this Work. The Publishers beg to assure the Public it may be fully relied on and they challenge the discovery of an error of any importance in it: it has been divided into Military Divisions, and all the Civil and Military Stations and public roads are accurately laid down. The Publishers hope in another year to be able to present their Subscribers with a complete Map of Calcutta.

An Almanac for the Year.

To which is added, The Planets and their Relations Signs of the Zodiac, Chronological Cycles, Moveable Feasts, Ember Days, Ecliptic and Equinoctial Relations, Solar and Lunar Eclipses, Time of High Water, Terms in the Supreme Court, Hindoo and Mahomedan Days of the Week, Hindoo and Mahomedan Holidays Local Observations on each month in the year, &c. compiled expressly for this Work.

The Prime, or Golden Number of years elapsed in this Cycle. At the birth of Christ, the Golden Number was 2.

LOCAL OBSERVATIONS,

FOR THE YEAR

1824.

LOCAL OBSERVATIONS,

FOR THE YEAR

1824.

JANUARY.

The thermometer ranges in the shade this month, from 66 in the morning to 70 in the afternoon, Fahrenheit.

The evenings are pretty clear, and the mornings, sometimes if not generally, damp and foggy.

The days are cool, serene and clear, enjoyed by all, except by rheumatic and gouty subjects.

The wind continues northerly, and is sometimes pretty strong; but not usually so.

Vegetables, of all kinds, are in the highest state of perfection; the market abounds with green peas, cauliflowers, cabbages, nole, cole, turnips, potatoes, sweet potatoes, carrots, radishes, young onions, French beans, seem, breenjaul, celery and sallad, &c. &c.

Beef, mutton and Pork, &c. of the best and most healthly kind; Poultry and game in abundance.

Fruit trees, in general, blossom this month, that is, the mangoe, rose apple, peach, and pumplenose, &c. the fruit from these, may be expected in May and June.

The principal fruit now in season is Up Country oranges; a few pine-apples may be procured, but they are not good; plantains and cocoanuts may be had throughout the year.

N. B.—Green cocoanuts are excellent in curries; the Malay curries, so highly esteemed for their delicious flavour, is solely owing to the use of this fruit.

The fish market is well stocked at this season, with becktee, moonjee, rowe, cutlah, quoye, sowle, selliah, bholah, eels, bongspattah, and many others of inferior note.

FEBRUARY.

The thermometer in the shade this month ranges on a medium from 62 in the morning to 76 in the afternoon, Fahrenheit.

The weather in the beginning of the month is generally disagreeable: the wind blows from the N. W. principally, and sometimes veers round to N. E. blowing cold, attended with clouds and drizzling rain, till about the 20th, when the wind sets in from the southward, and the weather becomes comfortable and pleasant.

The measles, in children are very prevalent during the whole of this month, and it is, perhaps, without exception, the best month in the whole year for it, particularly the latter part.

The rheumatism and the gout are now bearable about this time:—Warm clothing becomes rather troublesome to new comers,

but not so with old Indians: the state of their blood, from the debilitating influences of the climate, being considerably under proof, would render it unsafe to think of a change till the middle of next month.

There is very little variation in the markets this month, from the last, with the exception of a greater abundance, particularly in the fish market, which has the addition of the small hilsah, (herrings): the large hilsah (sable fish, or shad,) makes his appearance on the shambles, in July.

The additional vegetables, are asparagus, pumpkins, water melons, and young cucumbers; and of fruits, the custard apple, mulberries, and bale, &c.

N. B. Various operations of husbandry are now greatly accelerated, from the ground being moistened by light showers.

MARCH.

The Thermometer ranges this month in the shade, upon a medium, from 70 in the morning to 85 in the evening Fahrenheit.

The weather throughout this month is delightful indeed — Thus, while the thermometer plays at summer heat, refreshed by a cool and favored southerly breeze, the long established Anglo Indian feels his cold blood meandering through the torpid veins, which gives a zest to every vital power and makes him think himself again a youth.

Meats continue in good condition. – Green peas and turnips disappear this month; sallad, cabbages, carrots and celery, on the decline; asparagus and potatoes continue good; green mangoes are now in request for pickling, and are also used in curries; The omrah, water cresses, and greens are plenty. Fish plenty, and the gooteah (a small delicious fish) comes now into market. Water Melons appear in the middle of this month and continue in perfection, till the middle of June.

The price of articles, in the bazar of Calcutta, are (with little variation,) the same all the year round: best mutton may be had, at two rupees the quarter or saddle; the best veal at 2 and a half rupees per quarter; a surloin of the best beef, for three rupees and so on in proportion to its quality down to one rupee, for the surloin, edge-bone, or round. Fowls are from 2 to 8 for one rupee, according to their size; ducks from 2 to 8, geese from 2 annas to 6 rupees per pair; wheat is from 15 annas to one rupee six annas per maund, (of 84-lb.) according to the quantity in the market; rice, from three rupees to one rupee per maund, according to its quality, and other articles may be procured in a like proportion.

This month generally ends with North-westers accompanied with thunder, lightning, and heavy rains.

APRIL.

The thermometer ranges this month in the shade, upon an average, from 73 in the morning, to 88 in the afternoon, Fahrenheit.

This month is sometimes very pleasant, particularly the com-

mencement, when the Atmosphere is rendered cool and refreshing by the frequency of North-westers.

The wind blows from the southward. and is very strong all through the month; but when it comes with hot air, for want of rain (and the arid and moist exhalations after rain) it makes every exertion of the human system, tiresome. fatiguing and oppressive.—The north-westers are sometimes attended with very heavy thunder and lightning, which do frequently much and extensive damage: they come on generally about the end of March, and continue at intervals till the middle of May.

Meat, about this season, begins to be flabby and poor,—the fat, spungy and yellow; very little good meat of any description to be found in the market.—Vegetables are nearly all out, except potatoes, asparagus and a few cabbage sprouts.—Water melons and what is commonly called the musk melon is now in great perfection; indeed, they are the only eatable fruit now to be found at market.—Green mangoes for pickling, and corinda for tart, are to be had in abundance

The fish market, this month, has the valuable addition of mangoe fish, so called from their annual visit into all the Bengal rivers, at this (the mangoe) season to spawn, they appear as soon as the mangoe fruit is formed on the tree. and disappear at the close of their season, about the middle of July,—This fish has an agreeable flavour and is much sought after, (by natives as well as Europeans) although not so large as a middle sized whiting. At the beginning of the month, they are sold at the rate of 6 rupees per dozen, and before the end of May they are one rupee the score; the carp and the Mhagoor, are also now procurable in the market and two to three score may be had for one rupee in June.

MAY.

The thermometer ranges this month in the shade, upon an average from 78 in the morning to 94 in the afternoon Fahrenheit.

The weather now becomes oppressive, the wind continues southerly and the heat is the most intolerable of any month throughout the year. it is also a painful one, particularly to those who from local or any other circumstances, are obliged to be much out of doors or exposed to the sun without a covering which is extremely dangerous at any hour, from 10 to 5 o'clock and it would be next door to death to any constitution except the natives who are inured to the climate by birth and habit, yet even they are sometimes struck dead by the powerful influence of the sun, more especially palankeen bearers, and several instances of this description occur annually. The season is however sometimes refreshed by gentle showers, but this is by no means common, nor to be expected. In 1812, 13, and 14, the month of May was pretty dry, and the heat intolerable; in 1815, there were frequent and copious showers of rain; 1816, from the beginning of the

year up to the early part of July, there were not above three slight showers, although the rainy season is always expected and seldom fails in setting in somewhere between the 8th and 28th of June: 1817 was very irregular, as the rains set in about the middle of February and continued with more or less intensity till the middle of September, from which period up to the 18th of October, the season was uncommonly oppressive and the concluding showers fell from midnight on the 17th, to midnight on the 18th of the same month. On Sunday May the 18th 1817, the thermometer at 2 P. M. placed in the centre of a large hall rose to the unusual height of 106 degrees, and several people partially lost their hearing from a too free indulgence of the punkah.

Mangoes and mangoe fish in great perfection.—Grapes of the largest size, peaches, pine-apples, rose apples, leechees, jumbrules, wampees together with water melons, musk melons, pomegranates, &c. &c. in season, and in high perfection.

Meats become indifferent; fish much the same as last month, except the becktee, which is scarce, on account of the hot weather, which renders it hardly possible to reach the market in a firm state.

Asparagus, potatoes and cabbage sprouts, are the only vegetables now in the market.

JUNE.

The thermometer the first half of this month, rises frequently to 96 in the shade at noon, from which time, that is on or about the 15th, if the rains commence, the heat of course subsides. The General Range is from 77 to 90.

The weather throughout the whole of this month however, is pleasant or oppressive according to the quantity of rain that falls; if the weather is dry, the heat is intolerable, generally very close, without a breath of air from any quarter; but if the rains come in, as they are always expected to do (in regular seasons) between the 10th and 20th of the month, the air is refreshed, and the weather comfortable.

On the 7th of June 1822, the rains set in with greater violence, than was ever remembered on any former period.

During the height of the storm, 9 inches of rain fell in 60 hours (equal to one-fifth of the total fall, of last year,) of which 7¼ inches fell in 24 hours, that is, from Friday (the 7th) at 5 A. M. to 5 A. M. on Saturday. From the commencement of this hurricane on Friday at 5 A. M. to the following Monday at 1 P. M. being 90 hours, the total fall of rain was 22½ inches

Meats are indifferent, and the fish market is much the same as last month; mangoes and mangoe fish in great abundance, and in great perfection; the Malda mangoe are sent into Calcutta about the middle of this month, which are reckoned, without exception, to be the best that can be procured in Bengal; grapes, peaches, and leeches, &c. go out this month; pine apples, in great perfection; custard-apples and guavas come now in season; vege-

tables all out, except asparagus, potatoes, onions and Indian corn.

Sultry.——————————Rainy.

JULY.

Rainy.——————————Stormy.

Winds light and variable.—Fair, Mild and agreeable.—Gloomy.

The thermometer ranges this month in the shade from 78 in the morning to 90 in the afternoon.

Meats indifferent; mangoes and mangoe-fish go out this month; asparagus in perfection; potatoes getting indifferent; fish, viz. the moonjee, the rowe, the cutlah, the quoye, the sowle, the mangoor, the chingree, the tangrah, and the chunnah are procurable all the year round; the hilsa (or sable) fish, comes in this month; becktee scarcely procurable, and not good.

The hilsa fish (sable) are now two for one rupee, of the largest size they will be four for a rupee in the course of next month which is the lowest price they are sold at; this fish is delicious eating, either boiled, baked, or roasted; but it is by some people reckoned very unwholesome, although there is no just foundation for this supposition. The hilsha, when cured with tamarinds, is excellent for breakfast.

Pine-apples, custard apples, and guavas continue in season.

Rainy.——————Heavy rains.

AUGUST.

Rainy.——Gloomy.——Winds light and variable.

Light rain and cloudy weather; thermometer, same as last month:—meat and fish markets indifferent; pumplenose, (shaddock) appear this month: the vegetables procurable are sallad, asparagus, cucumbers, radishes, turnips, cabbage, sprouts, and some indifferent potatoes.

Indian-corn, cucumbers, spinnage, radishes, and such like are procurable all the year round, but they are tasteless, except at this season, when they become very palateable, firm and good; guavas begin to disappear:—pine-apples, &c. continue in season.

Expect some fair weather about this time.——Rainy.

SEPTEMBER.

The rains subside considerably in this month; they are lighter and not so frequent as in the two past months; the wind is also light and variable. The thermometer ranges from 76 in the morning, to 84 in the evening.

Meat market indifferent; potatoes not eatable, yams come in about this time, and supply their place.

In the fruit market small oranges make their appearance; custard-apples, pine-apples, pumplenose, &c. continue in season.

The fish market improves a little, the Bektee, becomes larger and firmer. The following are now procurable at market, the Bholah, Dessy-tangrah, Konteh, Bhengirs, Gungtorah, Kowel, Toontee, Pyrah-chondeh, and also the shell fish Boodye Chingrey.

Light rains.———Fair.———Cloudy.
Fair weather.——Light rains.——Fair.——Rainy.——Cloudy.

OCTOBER.

The thermometer ranges this month in the shade from 75, in the morning, to 84 in the afternoon.

The rainy season breaks up this month, generally between the 10th and 20th days; sometimes, however, it runs up a little higher, but this is seldom the case; the concluding showers are generally very heavy, continuing from 4 to 24 hours, incessantly; after which the weather becomes fair, calm and delightful.

The meat market begins to revive this month, and the fish market to increase, the beckty becomes firm, and the other fish proportionably good.

Vegetables and fruits, nearly the same as last month.

The kitchen garden is now prepared; on the rains subsiding, vegetation makes rapid progress, and young potatoes are, sometimes, procurable, pomegranates and cut-bail, are now in season.

Winds variable and light, veering round from N. W. to N and N. E. The monsoon changes about the 21st of this month—after which, the wind continues pretty steadily between N. and N. E. till the end of March.

Pleasant weather.———Fair.

NOVEMBER.

Delightful weather; wind northerly; days and nights cool and clear.—The thermometer ranges from 64 in the morning, to 75 in the afternoon:

The meat market looks wholesome, the meat becomes firm and good;—Abundance of fish, and in excellent condition.—The vegetable market undergoes a total renovation this month, by the introduction of green peas, new potatoes, and various other young vegetables. Game also comes to market this month, in considerable quantities, viz. Hares, Snipes, Wild Ducks, and Teal. In the fruit market, may be had oranges limes, lemons, pumplenoses, papia, pine, custard apples, plaintains, and cocoanuts, &c.

Fine weather.—Wholesome weather.—Mornings rather foggy.

DECEMBER.

Cold weather.

The thermometer ranges from 56 in the morning, to 70 in the afternoon.—Winds northerly; weather clear, cool and temperate, evenings and mornings extremely chilly and attended with dense fogs: meat and fish market in high order: game of all kinds, in abundance; the vegtables procurable are peas, lettuces, young onions, Radishes, Small Sallad, Sweet Potatoes, French Beans, Seem, Yams, Carrots, Turnips, Greens. Young Cabbages, Cauliflowers, and Potatoes, in perfection; the Brazil currants (tipperahs) and bail make their appearance, and oranges, limes, lemons and papias, &c. continue in season

Managers in England; HENRY STONE, and HENRY ALEXANDER.

Messrs PAXTON and Co. *Agents in England.*

The object of this fund is to provide for the maintenance of the widows and children of such of the subscribers as may not, at their demise, leave property sufficient for the subsistence and education of their families; also to assist in maintaining such of the subscribers themselves as may be compelled by sickness or infirmity to return to Europe, without an adequate provision for their support.

It is at the option of the civil servants of this establishment, either to subscribe thereto or otherwise.

The following are the rates of contribution:

If the salary or other public allowances of the subscriber be not more than

If 1000 sa. rs. per mensem, his monthly subscription to be,.....*Sicca Rupees*	10
If more than 1000 and not above 2000.....	20
If more than 2000 and not above 3000.....	30
If more than 3000 and not above 4000.....	40
If more than 4000.....	50

The contribution payable by each subscriber is deducted from his monthly allowances by the sub-treasurer, collector or other officer, paying the same, and transferred to the treasurer of the fund. The committee of managers may in particular cases, admit a deviation from it, if a different mode of payment shall be desired by any subscriber.

All applications for admission to the benefits of the fund are to be made to the committee of managers, and to be accompanied with the necessary information, documents and proofs to enable the committee to ascertain the circumstances and situation of the party applying. The managers, after calling for any further information or evidence which may appear to them requisite are to submit the whole case for the determination of the subscribers, at the next general meeting. In cases of emergency and distress however, when the managers may consider the claim valid, they are authorized to advance such proportion of the fixed allowances hereafter specified as may appear to them indispensably requisite, until a determination can be passed by the subscribers.

Any subscriber to the fund who may be compelled by sickness or infirmity to proceed to Europe for the recovery of his health, and shall not be possessed of sufficient means to pay for his passage to Europe, and support himself and family during his necessary absence from India, on his making a declaration upon oath to this effect, or otherwise establishing the fact, and producing a certificate of the necessity of his return to Europe, solemnly attested by the surgeon who has attended him, and countersigned by a member of the medical board, with the consequent permission of government for his proceeding to Europe, will receive from the fund a donation, equivalent to the Company's allowance for a twelve-month to a servant, of his rank when out of employ, viz. if he be a senior merchant 4000 sicca rupees, if a junior merchant 3000 sicca rupees, if a factor or writer 2000 sicca rupees. At the expiration of one year of the party being in Europe, a further donation shall be made to him, on his application to the agents for the fund in England, equal to that advanced to him upon his embarkation to India; at the exchange rate of two shillings and sixpence for the sicca rupee, viz. £300, £375, or £450, according to his rank in the service at the time of his leaving India. Should the number of

covery of his health render it necessary to protract his stay in Europe beyond the second year, and besides his own declaration upon oath to this effect he shall produce to the agents for the funds in England, a certificate solemnly attested by a respectable physician, or other professional gentleman of established practice, that the state of his health has not admitted of his previous return to India, he will, at the commencement of the third year after his embarkation from India, receive from the Agents in England, a donation equal to a moiety of the amount paid to him in the preceding year, and another moiety on a similar declaration and certificate at the end of six months, viz. two years and a half after his embarkation from India, if he be still in Europe, which is to be considered to include all claims whatever upon the fund to the period of his return to India: passage money is granted, in cases appearing to require it in addition to the sums above specified, and in such cases the amount is to be determined by a general meeting of the subscribers.

On the death of any subscriber to the civil fund, who may not be possessed of property sufficient to provide for his family, and may, consequently, leave a wife, cohabiting with him or maintained by him and living under his protection to the period of his decease, without an adequate provision for her support, as hereafter specified; if, on the information documents and evidence, which may be submitted by her to the managers of the fund, it shall appear to the satisfaction of a general meeting of the subscribers that she is a proper object, a pension is to be assigned to her, under the provisions and limitations stated in the following article Provided that nothing contained therein, or in any other part of the rules for this institution, shall be considered to entitle her to the benefits of it any widow, who may have been legally divorced or separated from her husband for adultery; or who at the period of her husband's demise, may have quitted his protection, and be living in a state of notorious adultery, though not divorced or separated from him by law.

First. If the widow, at the time of her husband's death, be resident in India, and be left without an income exceedin gone hundred rupees per mensem, a pension to be assigned to her of three hundred rupees per mensem, during her residence in India. If the widow be not resident in India at the time of her husband's death or shall afterward quit India, and her income, from her husband's estate or otherwise, shall not exceed one hunred pounds per annum, the pension to be assigned to her to be three hundred pounds per annum.

Secondly. If the income of the widow, resident in India at the death of her husband, be more than one hundred sicca rupees per mensem, but exceed not four hundred rupees or if the widow be not resident in India at the time of her husband's demise, or shall after wards quit India, and her income be more than one hundred pounds per annum, but shall not exceed four hundred pounds per annum, the pension to be assigned to her is to be such as will make up her income to four hundred rupees per mensem, during her residence in India, or four hundred pounds per annum in Europe, or elsewhere.

Thirdly. In the event of a widow, to whom a pension may have been assigned acquiring subsequently by inheritance, bequest, or otherwise, any property or income which with the property left to her at her husband's decease, and the pension received by her, may render her total income, including her pension from the fund, more than five hundred rupees per mensem, during her residence in India, or more than five hundred pounds per annum in Europe or elsewhere, her pension from the fund is liable to abatement, proportioned to the excess of her entire income, including the pension, above the sum specified; or to be altogether discontinued, in the event of her property or income, exclusive of the pension assigned to her from the fund, being equal to the full sum of five hundred rupees per mensem in India, or five hundred pounds per annum in Europe, or elsewhere.

Fourthly. All pensions of widows are also liable to discontinuance on their remarriage. But in the event of their being again left in a state of widowhood, without an adequate provision for their support, they may be again admitted to the benefits of the fund, under the same provisions and limitations as on their original admission.

Fifthly. The pensions to widows, who may be admitted to the benefits of the fund, are to be paid in advance half yearly to themselves or to their authorized agents. But the acknowledgement of the widow herself shall be taken for all sums paid in her behalf, and shall contain a solemn declaration that her entire income including the pension received by her does not exceed the sum limitted above.

Widows are, if they have no means of paying for their passage to Europe, supplied from the fund with such sum as may appear requisite for that purpose.

If any subscriber to the fund shall die without the means of providing for his family, and shall consequently leave a child or children, born in wedlock, without

an adequate provision for their maintenance: and on the information, documents, or evidence which may be submitted in their behalf to the managers of the fund, it shall appear to the satisfaction of a general meeting of the subscribers that they are proper objects, an allowance for their maintenance and education shall be assigned from the fund, under the provisions and limitations contained in the following articles:

First. If the child or children of the deceased subscriber be left without any provision, the allowance for the education and maintenance of each child, to be granted from the fund, in India or in Europe, is to be according to the age of the child, as follows, viz.

Till five years age, thirty rupees per mensem in India; or thirty pounds per annum in Europe.

From the commencement of the sixth year, to the end of the eighth, forty rupees per mensem in India; or sixty pounds per annum in Europe.

From the commencement of the ninth year, to the end of the eleventh, fifty rupees per mensem in India; or eighty pounds per annum in Europe.

From the commencement of the twelfth year, sixty rupees per mensem, in India; or one hundred pounds per annum in Europe.

Secondly. If any provision be left by a subscriber for his child or children; or if after his death they shall at any time become possessed of property or income by inheritance, bequest or otherwise; but not such as to afford the sums specified for their education and maintenance; the allowances to be granted from the fund or to be such as, in addition to the property or income possessed by them, will make up the several sums above specified according to their respective ages; and as they may be resident in India or in Europe.

Thirdly. In the event of the property or income left to the child or children, of a subscriber, at his demise, or which may subsequently devolve, or be in any wise acquired by them, being such as to afford the full amount specified for their education and maintenance, they are not considered entitled to any allowance from the fund; and any allowances which may have been granted before such accession of property or income are to be discontinued.

Fourthly. The allowances granted from the fund, for the maintenance and education of children, are to be paid in advance half yearly, to their guardians or relatives; or to such persons as may be intrusted with the disbursement of the sums allotted for them either by the managers of the fund in India or by the agents to the fund in England; who from time to time are to adopt such measures as may appear necessary for the purpose of ascertaining any accession of property, which would render the allowances from the fund liable to abatements or discontinuances.

Fifthly. The provision so made from the fund, for the maintenance and education of female children, ceases on their marriage, or on their being settled in any profession or employment; and the provision for male children ceases on their being settled in any profession or employment or on their attaining the age of twenty one years. But any requisite sum, not exceeding five hundred pounds, may be appropriated to the benefit of male or female children by the managers of the fund in India; or by the agents of the fund in England at the time of their marriage, or of their being settled in any profession.

For children who may be in India when admitted to the fund, and who may be sent to England for their education, with the concurrence of the managers, passage money, if requisite, is to be supplied from the fund, not exceeding one thousand Sicca Rupees for each child. An allowance for passage monies, not exceeding one hundred pounds also to be granted if it appear necessary, for the return to India of any children admitted to the fund, who after completing their education in Europe, may return to India.

In all cases of application being made to the fund for assistance to the family of a deceased subscriber, an authenticated copy of the will of the deceased, or if he shall have died intestate, a full authentic statement of any property left by him, and of the legal heirs thereto must be submitted for the information of the managers and subscribers. A general meeting of subscribers has full power to reject the application for aid from the fund, where it may appear, that a subscriber, leaving property, has made an improper devise of it, with a view to throw his family upon the fund, or has purposely neglected to make a disposition of his property for the benefit of his family.

Those who may arrive in India, and subscribe to the fund, are considered subscribers from the time of their arrival at Fort William, or from the commencement of any allowances receivable by them as civil servants of the Bengal establishment. But no civil servant of this presidency in India, who may not accept the invitation [illegible] him by the preceding article, within six months after his arrival in India, shall be permitted to become a subscriber

The contribution of every subscriber to the fund, ceases upon his leaving India, to return to Europe, but in the event of his returning to India, and again receiving allowance from the company, he is to renew his contribution from the commencement of such allowance.

If a subscriber to the fund, at the time of his retiring from the service to return to Europe, shall have contributed, by his previous monthly payments to the fund the principal sum of five thousand sicca rupees: or if, on his quitting the service, he shall pay to the fund what may be wanting to complete his contribution to that amount; such contribution shall entitle the family of the subscriber, on his decease, to the benefits of the institution, under the several provisions herein stated, or such as may be hereafter established, in like manner as if his death had taken place during his residence and actual subscription to the fund in India. The family of any subscriber to the fund, who may die during his temporary absence from India for the recovery of his health, are also considered entitled to the benefits of the fund, under the existing rules of it, whether such subscriber may have contributed more or less than five thousand sicca rupees. In all other cases, if the deceased member of the institution shall not have been an actual subscriber to the fund at the time of his death, and shall not have contributed five thousand sicca rupees to the fund, it shall be at the option of the subscribers to admit his family to the benefits of the fund or otherwise.

If a subscriber to the fund shall be dismissed from the service, he shall cease to be entitled to the benefits of the institution, and his widow and children, shall in like manner, have no claim to the benefit of the institution—But in each case the amount of his actual contribution to the fund, shall be returned with interest, at the rate of ten per cent. per annum.

If a subscriber shall be suspended from the service, he shall, during the period of his suspension, cease to be entitled in his own person to the benefits of the institution: but in the event of his restoration, he shall be restored to his former rights.

A subscriber suspended from the service, shall however, have the option of receiving back the amount of contributions, in the same manner as in the case of persons finally dismissed from the service, but if he should take advantage of this clause, he shall cease to be entitled to the benefits of the institution, either for himself or family, as in the case of persons finally dismissed from the service.

If a subscriber, being suspended from the service, shall die during the period of suspension, his widow and children shall be entitled to the full benefits of the institution, excepting in the case of his receiving back the amount of his contribution.

Besides the College at Hertford, the Company patronize a School subordinate to it and under the superintendence of the Principal, into which boys may be admitted at an early age, and in which they will be taught the elements of general learning, and such other accomplishments as are the usual objects of instruction in the larger seminaries of this country. Especial attention will be paid also to such parts of education as may serve to qualify them for public business, and for the higher departments of commercial life

Though this School be designed as introductory to the College, it is not be understood that the Company is pledged to make it the sole channel of an appointment to the college itself; but it is nevertheless proper to observe, that those who shall have passed through both institutions will enjoy the advantage of an uniform system of education begun in early youth and continued to their departure for the duties of their public stations.

Notwithstanding that an intimate connection is intended to subsist between the College and the School, it is nevertheless to be understood, that whilst the College is exclusively appropriated to persons designed for the Civil Service of the Company alone, the School will be open to the public at large

DEDUCTION FROM SALARIES.

Government has established the following Rules, in respect to the deductions to be made from the Salaries of persons absent from their stations, whether on account of bad health, or on account of their private affairs, likewise on other points connected with such absence.

A deduction of one-sixth except in the cases below stated to be made from Salaries or authorized Emoluments of all Civil Servants compelled to leave their stations on account of sickness, during the whole period of their absence.

This Rule however is not to apply to Zillah or City Registers or to other Individuals whose Allowances may not exceed 500 Rupees, per measem. It is not intended to make any deduction from the Salaries of Civil Servants holding such appointments, when absent from their stations on account of bad health.

In cases in which the Salaries or authorized Emoluments, of Civil Servants exceed the sum stated under the foregoing Head only in such a small degree, that a deduction at the rate of one-sixth would reduce the remaining proportion below 500 Rupees per mensem, it is the intention of Government, that the deduction should not be carried to the full extent of one-sixth, but merely so far as will leave to the Individual the monthly sum, above mentioned, of Sicca Rupees 500.

A deduction at the rate of one-sixth to be made from the Salaries or authorized emoluments of all Civil Servants, stationed within the divisions of Bareilly and Benares, or as they are ordinarily denominated the Western Provinces, who may with the sanction of Government, be absent from their stations on account of their private affairs, during any period not exceeding eight weeks in the year.

A deduction of one-sixth to be made from the Salaries or authorized Emoluments of all Civil Servants stationed in the Lower Provinces, who may with the sanction of Government, be absent from their stations, on account of their private affairs, during any period not exceeding six weeks in the year.

A deduction of one third to be made from the Salaries or authorized Emoluments of Civil Servants who may be absent from their stations, on account of their private affairs (and not on account of sickness,) for periods of time respectively, exceeding those specified under the two foregoing Heads, numbered according as the Rules contained under these Heads may apply to the cases.

DEPUTATION ALLOWANCE.

When average monthly Emoluments as follows.	Rate of Officiating Allowance per Mensem	Add, Subsistance money, according to rank	Total.

To Civil Servants when in Charge of Offices, distinct from those to which they are permanently appointed

When the average monthly Emoluments are as follows	If the office be at the same station per mensem	If at a different station, per mensem
Not exceeding, per mensem, sa rs. 1,500	sicca rupees 150.	sicca rupees 300
More than sa. rs. 1,500 but not exceeding Sicca rupees 2,800	sicca rupees 250.	sicca rupees 400
Exceeding sicca rupees 2,800	sicca rupees 350.	sicca rupees 500

The Extra Allowances specified in the foregoing Statements are intended to preclude all claims on the part of the individual officiating to commission, which is considered to belong to the fixed incumbent, even during his absence subject of course to the prescribed deduction

The extra and Deputation Allowances above specified are to be considered applicable to Civil Servants in every branch to the Service, with the exception especially provided for below

The GOVERNOR GENERAL IN COUNCIL will determine the amount of the Extra or Deputation Allowances to be granted to persons officiating as Secretaries to Government or as Residents at Foregoing Courts, as circumstances may in each instance render advisable. The same course will likewise be pursued, when Offices may be constituted for the attainment of local or temporary object, similar to those at present held by the Commissioners in Behar.

When the Register of a PROVINCIAL COURT, or the Assistant to a Magistrate, shall be nominated to the charge of the Office of Register of a Zillah or City Court, at the same station as that to which he is permanently attached he is entitled to receive the Fees authorized by the Regulation on all Suits actually decided by himself as well as the Fees for registering Deeds, an arrangement which renders any further Extra Allowance unnecessary.

In those cases in which the Gentleman appointed to officiate in the situation mentioned under the preceding head, may belong to a different station an Extra Allowance is to be granted at the rate of 5 Rupees per diem.

Judge or Magistrate of a Zillah or City Court; Collector of Land Revenue or of Customs Commercial Resident; Salt Agent or His Assistant and Opium Agent or His Deputy.

Whenever the services of any of the Officers enumerated above may be required in the interior of their Districts or at any place within the limits of their respective local duties, no extra Allowance for travelling, or on any other account, is to be granted.

The foregoing Rule is not however to be considered applicable to the superintendants of Salt Chokies, who on the ground of established usage will be authorized to charge in a contingent Bill the bona fied expenses incurred by them in travelling through the extensive tracts of country respectively committed to their superintendence.

Magistrate, Collector of Land Revenue, Ditto of Customs, Opium Agent and Commercial Resident.

When a Register to Provincial Courts, or Assistant to any of the Officers enumerated above shall be deputed into the interior of the Districts to which they are attached or employed at any place within the limits of their respective local duties, they are to receive an Extra Allowance at the rate of Sa Rs. 5 per diem.

When Register or Acting Register of a Zillah or City Court, shall be deputed or employed in the manner stated under the foregoing head, he is to receive an Extra Allowance at the rate of Sicca Rupees 10 per diem.

The additional Extra Allowance stated in the preceding head is intended to compensate for the loss of Fees, to which the Officer so deputed or employed will be subjected during his absence from his head station.

The Orders of Government in the Judicial Department, of the 13th October 1809, in regard to Absentees, are to continue in full effect

These Orders direct, that any Civil Officer, who may obtain leave of absence, shall forward a Certificate to the Auditor's Office, signed by the person to whom he may deliver over charge and from whom he may again receive charge of his Office, specifying the date on which he may have relinquished, and on which he may have resumed charge respectively.

In cases in which it is not necessary, from the nature of the appointment, to depute a Civil Servant to relieve an Officer who has obtained leave of absence the individual leaving his station is to forward to the Auditor a Certificate from his immediate superior in Office or if he should have no immediate superior in Office, or if circumstances should render it impracticable to obtain such certificate, a notification attested by himself, stating the date of his return to it.

The Civil and Commercial Auditors will be instructed to pass all Bills for Extra Deputation Allowances, provided for by the foregoing Rules, without the delay of a reference to Government, and the certificate stated in the preceding paragraphs are to guide them in regard to the periods during which deduction, are to be made from the Salaries of Absentees, and in respect to the date; from which the Extra and Deputation Allowances are to commence, and the periods when they are to cease.

A Diploma from the Royal College of Surgeons of London, or of the Colleges of Surgeons of Dublin or Edinburgh, or of the College and University of Glasgow, or the Faculty of Physicians and Surgeons of Glasgow, is deemed satisfactory as to his knowledge of surgery The above testimonials must be produced upon his receiving his nomination from a member of the Court of Directors. The Assistant Surgeon will then be sent to Dr. Chambers, the Company's examining Physician, with the undermentioned letter:

"Sir, I have the commands of the Committee for passing Military appointments, to request you will please to examine Mr.——, and certify whether he is now qualified in physic to serve as an Assistant Surgeon at any of the Company's Presidencies in the East Indies; and if not, at what period you think he may be sufficiently qualified to obtain your certificate."

The following regulations have been resolved on by the Court, in reference to the examination by Dr. Chambers:

That every person nominated an Assistant Surgeon be required to pass an examination in the practice of physic, in which examination will be included as much anatomy and physiology as is necessary for understanding the causes and treatment of internal diseases, as well as the art of prescribing and compounding medicines.

That upon the Assistant Surgeon presenting himself to Dr. Chambers, he be required to produce to him satisfactory proof of his having attended at least one course of lectures on the practice of physic, and above all, of his having attended diligently the practice of the Physicians at some General Hospital in London, Edinburgh, Dublin, or Glasgow, for at least six months; and that unless he produce, such proof, it be deemed a want of proper qualification, and be immediately reported as such by the examining Physician, to the Committee for passing military appointments."

The Assistant Surgeon will likewise be required to attend one course of Dr. Gilchrist's Lectures in Hindoostanee, for admission to which he will have to pay not more than Three Guineas; and previous to his passing the Committee, he will be required to produce Dr. Gilchrist's certificate of his having so attended.

APPOINTMENTS NOT TO BE PURCHASED.

At a Court of Directors, held on Wednesday, the 9th August, 1809—Resolved. That any person who shall, in future, be nominated to a situation, either civil or military, in the service of the Company, and who shall have obtained such nomination in consequence of purchase, or agreement to purchase, or of any corrupt pretence whatever, either direct or indirect by himself or by any other person, with or without his privacy, shall be rejected from the service of the Company, and ordered back to England, if he shall have proceeded to India before a discovery of such corrupt practice be made: and if such situation shall have been so corruptly procured by himself or with his privity, he shall be rendered incapable of holding that, or any other situation whatever, in the said service. Provided always, that if a fair disclosure of any corrupt transaction or practice, of the nature before described, wherein any Director has been concerned, shall be voluntarily made by the party or parties engaged in the same with such Director, the appointment thereby procured shall be confirmed by the Court.

PASSAGE MONEY TO CADETS.

Upon the friends of each cadet paying the regular amount of the passage money to the Company's paymaster, such cadet be required to sign a declaration, upon honour, that he has not paid, or caused to be paid, nor will pay or cause to be paid, either directly or indirectly, by himself, or by any person on his behalf, any further sum for his accommodation, either to the commander or mate, than those prescribed by the Court's regulations:

In the event of its appearing at any future time, that a further sum shall have been paid by, or for any cadet, such cadet will be placed at the bottom of the list of rank of the season in which he was appointed.

SUPERINTENDENT OF CADETS.

To obviate as far as practicable, the extreme inconvenience to which cadets are liable, on their first arrival in India, from incurring exorbitant expences at Taverns, to which they generally refer, before any arrangement can be made for their occupying quarters in Fort William, an Officer has been appointed under the immediate orders of the Town Major, to receive charge of all cadets arriving from England and retain command of them, until they proceed, under orders from His Excellency the Commander in Chief, to join a Regiment.

It is the special duty of this officer to supply Cadets with Servants; to see that they are settled in Quarters; and generally, to protect them from the extortion and impositions of Native Agents.

On the arrival of a vessel from England, this Officer will immediately be apprized of it; and of the number of cadets on board, if any, in order that suitable arrangements may be made for their reception.

The Superintending Officer dines daily with the Cadets, and Breakfasts with them, at least twice a week, for the purpose of keeping up that perfect regularity so essential to Mess Institutions; and in order to enable him to assist the Gentlemen cadets in procuring servants, and such articles as may be necessary for their immediate comfort, the Presidency Pay Master is authorized to advance Two Hundred Rupees on account of each cadet, on the receipt of the Superintending Officer accompanied by a Certificate of arrival from the Town Major,—this advance to be separately accounted for to each Individual, and any balance remaining, to be finally made over on his quitting the Mess, the total advance being ultimately deducted in Monthly instalments of 50 Rupees by the Pay Master of the Division, within whose circle the Corps to which cadets are attached, may be respectively situated.

The above arrangement being made with the sole view of assisting cadets on their first arrival in India, it will be entirely optional with them to avail themselves of it; and it is hereby intimated, that those who may have friends in Calcutta, are not required to join the Mess in Fort William.

FURLOUGH REGULATIONS.

Officers (of whatever rank) must be ten years in India, before they can be entitled (except in case of certified sickness, and as hereafter specified) to their

rotation to be absent on furlough, and the same rule is applicable to assistant military surgeons.

Officers who have not served ten years in India, but whose presence in England is required by urgent private affairs may be allowed a furlough for one year without pay, on furnishing an affidavit of the urgency of the case, in which the circumstances are to be briefly noticed.

Officers after arrival at the Presidency, and to address their applications, for furlough to the Adjutant General, enclosing therein a Certificate from the Presidency Pay Master, and Accountant to the Military Department, if there being no demands against them (or in lieu thereof an Engagement on the part of some respectable Agency House) and also a medical Certificate from a Presidency Surgeon, countersigned by the Examining member of the Medical Board if the application be grounded on ill health A Certificate signed by the Pilot of the date of dispatch of Vessels, in which Officers embark to be sent to the Adjutant General and also to the Secretary to the Government Military Department.

A chaplain after seven years residence in India is allowed to go home on furlough and receive the pay of major Should he go home from sickness prior to this period of service, he is allowed the pay of captain only.

A conductor of stores is allowed furlough pay, only in case of going home from sickness.

Officers going to England on furlough, are required immediately to report their arrival by letter to the Secretary, stating the name of the ship in which they arrived, and their address, forwarding at the same time the certificates they received in India.

The period of furlough is three years, reckoning from its date to the day of the return of the officer to his presidency.

Officers are required to join the establishment to which they belong, at the expiration of the three years furlough unless they shall have obtained an extension of leave from the court, six months before the expiration of that period. No furlough will be extended, except in cases of sickness, certified in the manner hereafter mentioned; or in cases, in which it shall be proved to the Court that a further residence in Europe is indispensably necessary.

All officers finding it necessary to solicit a further leave of absence, on account of sickness, must transmit with their letter of application for such leave, a certificate signed by at least two gentlemen, eminent in the medical profession, describing the nature of the applicant's complaint, and stating it to be their opinion that the circumstances of the case render a compliance with his request absolutely necessary. Also previously to such extension on furlough being granted, such further proof shall be adduced by personal examination, or by such other evidence, as shall be deemed satisfactory.

Officers abroad in any part of Europe, applying to remain a further time from their duty, on account of sickness, are to furnish a certificate of two eminent physicians, with the attestation of a magistrate, that the persons who signed the certificate are physicians.

Officers having obtained an extension of furlough to a given period, must at its expiration apply for permission, either to return to their duty, or to resign a further time in England,

No officer who has failed to obtain an extension of Furlough, will be considered eligible to return to the service after five years absence under the Act of the 33, Geo. III. chap. 52 sect 70.

Every officer upon leaving India will receive a printed copy of the General Order on this subject, published agreeably to the court's instruction, and the plea of ignorance of the regulations will not be admitted as any justification of the breach of them; officers therefore, who shall come home on furlough and who shall not in due time apply, so as to effect their return to the presidency to which they belong within the period of three years from the commencement of their furlough, will subject themselves to the loss of the service, unless they shall be permitted by the Court to remain a further time in Europe.

No officer on furlough can receive pay for more than two years and a half from the period of his quitting India, excepting colonels of regiments, and those of the rank of lieutenant colonel regimentally, when promoted to that of major general; the latter are then allowed to draw the pay of their brevet rank beyond the above period.

OFFICERS RETURNING TO INDIA.

Regulations as to the charge of Recruits.

At a Court of Directors, held on the 22d December 1820.—Resolved, that whenever a detachment of Company's recruits to the extent of thirty-men, shall be em-

backed on any one ship, they shall be placed in charge of the Senior Company's officer, not exceeding the rank of a field officer, who shall have obtained permission to return to his duty on the ship, within at least seven days of the period fixed for her leaving Gravesend :—That the officer proceed with the men from the depot :—That, as a remuneration for this service, he be granted the passage-money of his rank :—And that the commander of the ship be authorized to draw on the company's paymaster for the same.

PRECLUDING THE RETURN TO THEIR DUTY.

OF MILITARY AND OTHER OFFICERS AFTER AN ABSENCE OF FIVE YEARS.

"No officer who shall have held any civil or military station whatever in India, in the service of the united Company, being under the rank or degree of a member of council or commander in chief of the forces, and who, having departed from India by leave of the Governor General in council, or Governor in council, shall not return to India within the space of five years next after such departure, shall be entitled to any rank or restoration of office, or be capable of again serving in India either in the European or native corps of troops, or in the civil line of the Company's service; unless, in the case of any civil servant of the Company, it shall be proved to the satisfaction of the Court of Directors, that such absence was occasioned by sickness or infirmity, or unless such person be permitted to return with his rank to India, by a vote or resolution passed by way of ballot, by three parts in four of the proprietors assembled in general court, specially convened for that purpose whereof eight days previous notice of the time and purpose of such meeting shall be given in the London Gazette, or unless in the case of any military officer, it shall be proved to the satisfaction of the said Court of Directors and the board of commissioners for the affairs of India, that such absence was occasioned by sickness or infirmity, or some inevitable accident.

OFFICERS RETIRING FROM THE SERVICE.

Regulations respecting Military and other Officers retiring from the Company's Service.

BOAT ALLOWANCE.

REGULATIONS.

G. G. O. 16TH DEC. 1816 The Right Honorable the Governor General in Council is pleased to authorize Officers of His Majesty's Service, who become Supernumerary to the complement attached to Regiments, to draw the Half Batta, and the House Rent, (if not furnished with quarters) of their Regimental Rank, during the time they may be detained in India, also Boat Allowance from the Station at which their Corps is stationed, to the Presidency, when directed by the Commander in Chief to proceed by water.

G. G. O. 19TH SEPT. 1818. The Most Noble the Governor General in Council is pleased to publish the following resolutions of Government, on the subject of Boat Allowance to Officers: viz

1. Whenever a Regiment, or any number of Troops or Companies of a Corps move by water, the proportion of Officers of all Ranks regularly belonging to, and on the Establishment of such Regiment, or Companies of a Regiment as the case may be will naturally move with their men, and draw in course the Boat Allowance of their ranks in addition to their Tentage

2. If from a deficiency of Officers, or other cause, the Commander in Chief, shall consider it necessary to order any additional Officers, of whatever rank, to join and do duty with such Regiment or Companies of a Regiment, His Excellency will be pleased to represent the case to Government, when Boat Allowance in addition to Tentage will be granted to the requisite number of Extra Officers.

3. In the case of drafts, detachments or recruits proceeding to join Corps by water, or of Invalids, Supernumeraries, or time-expired men returning to Fort William, Boat Allowance in addition to Tentage, will be granted, on the representation of the Commander in Chief, to the following proportion of Officers.

To any Detachment under 30 men, one Subaltern. If above 30 and under 60 men, two Subalterns; and so on in the same proportion; with the addition of one Captain for every Detachment, consisting of not less than three or more than five such Subaltern's parties, two Captains for six and not more than eight such parties, and so on also with the further addition of one Field Officer for every Detachment, consisting of not less than three Captain's parties as above detailed.

4. The names of all Officers appointed to do duty with Detachments as Extra Officers with Regiments or Companies of Regiments proceeding by water, are to be specified in General Orders or Division, or Station Orders, (as the case may be) for the convenience of more readily auditing their Bills.

5 The Governor General in Council extends the indulgence of Boat Allowance to all Cadets, Assistant Surgeons, and Subaltern Officers, on their arrival for the first time in Bengal, and being ordered to join a Regiment; the same indulgence is extended to Gentlemen appointed in India to Commissions in His Majesty's Army or in the Local Corps; to Ordnance and Warrant Officers, and generally to persons newly appointed and, for the first time, proceeding to join their Corps or Station; but Officers and others profiting by this indulgence, are to cease drawing their Tentage from the day of their being ordered to embark and join until the expiration of the person for which they received Boat Allowances.

6. His Excellency the Commander in Chief, will be pleased, in all possible cases, to employ individuals of this last description on duty with Detachments, where Extra Officers drawing both Boat and Tent Allowances, shall be required, under the provisions of the 2d and 3d Clause of this order. This preference will reduce as much as possible, the charge which must be incurred by the indulgence now granted to all young Officers on their first arrival.

7. One Medical Officer will always be permitted to proceed on duty with every Detachment of Europeans, and such Officer will be permitted to draw Boat Allowance in addition to Tentage.

8. Whenever the Commander in Chief, may be of opinion that the presence of a person conversant in the Languages is essentially necessary with a European Detachment, and that none of the Officers attached to it, or proceeding to join Corps on Boat Allowance under the 5th Clause of this Order, are competent to the duty in question, His Excellency will be pleased to recommend any Officer qualified to officiate in the capacity of a Linguist, such Officer will be permitted to draw Boat Allowance in addition to Tentage.

9. In all other cases, except those above specified, Officers drawing Tentage are invariably to proceed at their own expence on any duty on which they may be sent, unless ordered specially by water in charge of Troops, Stores, or Treasure, by the Commander in Chief, with the sanction of Government previously obtained. When any particular occasion appears to His Excellency to call for special indulgence, such case is to be referred for the decision of the Gover-

nor General in Council in the first instance, agreeably to the practice in regard to all matters creative of expence, unless when the Commander in Chief may be in the Field, or when a pressing emergency shall appear to a General or other Officer in Command to be such as shall justify him in ordering Boat Allowance on his own responsibility. In such cases, the General or other Order shall be considered by Paymasters as a sufficient warrant for immediate Payment of a Boat Allowance Bill, and the necessary sanction to the Audit Department for adjusting the same, will be issued by Government on the representation of His Excellency the Commander in Chief.

10. The regulations now laid down, are not be considered as affecting in any way Half Pay or reduced Officers, whose cases are provided for by General Orders of 16th December 1816.

G. G O 27TH MARCH 1819.—With reference to General Orders of the 19th of September last defining the Situations in which Officers would be permitted to draw Boat Allowance, the Most Noble the Governor General in Council is pleased to publish the following additional Rules.

Whenever a Lieutenant, Cornet, Ensign, or Cadet is for the first time, permanently Posted to a Corps he will be permitted to Draw the Boat Allowance of his Rank, from the Cantonment in which he may be doing duty, to the one where his Regiment may happen to be stationed, altho' he may have been previously receiving Tent Allowance with the Corps, to which he had been temporarily attached, provided that prior to his being finally posted, he shall not have been in the receipt of Full Regiment Allowances, for the Term of 8 Months.

It is to be clearly understood, however, that Officers drawing Boat Allowance under this Regulation, shall forfeit their Claim to tentage, during the period for which Boat Allowance may be drawn.

G. G. O 14TH APRIL 1821.—Misapprehension appearing to exist as to the extent which the special indulgence of Boat Allowance sanctioned by Government to Cavalry and Horse Artillery Officers when ordered to repair to Ghazeepore, for the purpose of admitting Horses into the Service, the property of the Honorable Company, is extended to embrace, the Most Noble the Governor General in Council notifies to the Army, that return Boat Allowance to his Corps, can only be passed to an Officer who may actually have been serving with it at the period of his nomination to the Committee; Officers absent from their Regiments when appointed to the Ghazeepore Committee, will draw Boat Allowance from the Station where the order may reach them to Ghazeepore, and in return thence to such Station provided it is not below Benares.

CONDUCT OF OFFICERS ON BOARD SHIP.

It having come to the knowledge of the Court of Directors that the good order and wholesome practices, formerly observed in the Company's Ships, have been laid aside, and late hours and the consequent mischiefs introduced, by which the Ship has been endangered, and the decorum and propriety, which should be maintained destroyed; they have thought proper to frame the following Regulations on these points, to which the readiest acquiescence is expected, and any person offending against them, will incur the Court's high displeasure, viz

Resolved —Therefore, that in order to prevent any accident from the fire and lights being kept up beyond those hours usually observed in all proper disciplined Ships, it is strictly enjoined, that no fire be kept up beyond eight at night, unless for the use of the sick, and then only in a Stove, and that candles be extinguished by nine between decks, and ten, at latest, in the Cabins, and that the utmost precautions be observed to prevent their being visible to any Vessel, passing in the night.

That the hour for dinner be not later than two o'Clock, and when the Commander of the Ship retires from Table, either after dinner or supper, the Passengers and Officers of the Ship retire also

That the Captain be strictly enjoined to pay due attention to the comfortable accommodation and liberal treatment of his Passengers, at the same time setting them an example of sobriety and decorum, as he values the pleasure of the Court.

That any excess or disorderly behaviour below, being equally repugnant to the good order and discipline of the Ship, without representation, be noticed by the Court of Directors, and not fail to incur their displeasure

That any improper conduct of the Officers of the Ship, towards the Passengers, or each other, shall be quietly made known to the Commander, who shall weigh the circumstances with impartiality, and if conciliation be ineffectual, decide, according to the best of his Judgment; and every person concerned, be expected quietly to conform thereto, but should any one think himself aggrieved thereby, he may appeal to the Governor and Council of the first settlement the Ship arrives at, or if homeward bound, to the Court of Directors.

The diversity of characters and dispositions which must meet on Ship board makes some restraint upon all necessary; and any one offending against good manners, or known usages and customs, will on representation to the Court, be severely noticed.

APPLICATIONS TO HEAD QUARTERS.

G O. C. C. 21st JANUARY 1823. The Commander in Chief feels it necessary to apprize the Army at large that there are very few cases, and those of the most urgent nature, in which he can feel himself justified in dispensing with that most salutary Rule of Discipline and good Order which prescribes the Forms and Channels in and through which applications are to be made to Head Quarters, for Leaves of Absences, Promotions, and Appointments.

It is quite impossible to hold Commanding Officers of Regiments responsible for the important charge with which they are entrusted if their legitimate authority and controul over the members of their Corps is not duly maintained and upheld.

They alone are the fit judges in the first instance of the merits and claims which entitle the Officers and Soldiers under their Command to indulgence and consideration, and it is consequently to their judgement and recommendations the Commander in Chief mainly looks, for that information which may enable him justly to determine upon the applications which are submitted for his decision

All Applications involving the Patronage of the Commander in Chief, are to be addressed to His Excellency's Military Secretary

LETTERS TO HEAD QUARTERS.

All Letters to Head Quarters to be written on foolscap Paper, and if more than one side be written upon, the whole sheet to be sent. G. 2d May, 1815, and 5th January, 1816.

2 Officers holding situations away from the Presidency, and whose duties may be considered as purely Civil, such as Residents, Civil Surgeons, &c. shall, in the first instance, obtain leave to repair to the Presidency, from the authority under which they are immediately acting and on their arrival there shall submit their applications for the ultimate leave, thro' the Adjutant General of the Army.

On the arrival of a Sick Officer in Calcutta, he is to apply to a Presidency Surgeon submitting the Statement and Medical Certificate before mentioned, when the Presidency Surgeon will either direct him to wait on the Medical Board furnished with a Certificate from himself, or retain him under his own care, as may to him appear necessary.

The duty of Examining Sick Officers at the Presidency, is to be taken in rotation Monthly by the Members of the Medical Board, the Secretary of which will acquaint the Adjutant General of the Army with the name of the Examining Member on the 1st day of each Month

In case an officer fails ill when absent from his Corps, he is to procure the prescribed Statement and Certificate from the first Surgeon he may apply to, following the directions above given in his subsequent proceedings.

The Examining Member of the Medical Board being satisfied on a perusal of the Statement and a personal examination of the Sick Officer, that a Voyage to Europe, or to Sea, is absolutely necessary towards recovery, he will countersign the Certificate to that effect which will have been previously granted by the Presidency Surgeon

Every Company's Officer desirous of proceeding to Europe or any place beyond Sea, is to send his Application to the Adjutant General, accompanied by a Certificate from the Presidency Paymaster countersigned by the Accountant Military Department, that no demands exist against him in the Pay Department, or in lieu thereof, in the event of his being unable to procure such Certificate from his accounts being unadjusted, by an Engagement on the part of some respectable house of Agency to be responsible to Government for any claims that may eventually appear against him in the Pay Department) together with a Medical Certificate, signed as before stated, if the application be grounded on ill health. The name of the Vessel on which he intends to proceed to be stated in the application, or as soon after as practicable, with a request for authority to be received on board

Officers proceeding to Sea, who omit to send to the Secretary to Government Military Department, and to the Adjutant General, Certificates signed by the *Pilot*, of the date of dispatch of the Vessels on which they proceed, have their leave of absence calculated from the date of the Government General Orders granting the indulgence, instead of from the date of the Pilot's quitting the Ship, vide G. RECENT REGULATIONS REGARDING DRESS.

G. O. C. C. JUNE 8, 1821.—The Commander in Chief takes the present opportunity to signify his disapprobation of any fanciful alteration being made either in the dress or undress Regimental Uniforms by Commanding Officers, and all such which may have been adopted without the sanction of His Lordship through the Adjutant General, are to be immediately laid aside.—No device or ornament is to be worn on the Strap of the epaulet not authorized by the rules issued in General Orders dated 16th October 1801, which are to be strictly attended to, with the exception of Officers having the Rank of Colonel by His Majesty's Brevet, who are in future to wear a Crown and one Star on each epaulet, instead of two Stars as directed in the Order abovementioned.—No Officer under the rank of a Field officer is to wear two Epaulets. Officers of Grenadiers are to wear suitable Wings as at present in use with Officers of Light Infantry The Wings of Grenadier Officers are to be with Scales instead of Chains, and to have a hand grenade on each.

Regimental Officers of all Ranks are reminded that, though Cocked Hats are permitted to be worn with the full dress,—long Coats, Breeches, Stockings and Shoes—it is improperly adopted by them with their Field Uniforms, and is strictly forbidden, as well as the Foraging Cap in which some Officers make their appearance in the Evening. On such occasions the Regimental Chako is the only allowable Head-dress.

G. O. C. C. MARCH 18, 1822 The Commander in Chief is pleased to notify to the Army, that the Coats for the year 1823, due on the 1st January 1822, will be made with the distinctive facings of each Regiment.

This early intimation is given for the information of the European Officers, that they may be prepared to make a corresponding change in their dress; but this is not to take place until Clothing with the new facings shall be issued to Corps respectively; and the Clothing Agents are reminded of the General Orders of 7th July 1817, directing them to notify to Commanding Officers when they are enabled to commence upon the preparation of Coats with the prescribed facings for their Regiments.

The Commander in Chief has thought proper to continue the present uniform double breasted Jacket, which is to be worn with the lappels buttoned over when on duty.

The Raggy or Swiss Jacket, with loose white Linen Overalls or Trowsers for the Hot weather, and Grey Woollen Trowsers for the Cold season is permitted as heretofore on the line of march, on duties of fatigue at Regimental drills, and in situations not connected with Parades or other public occasions. I must however be kept in mind that the original object of this indulgence was to supply a suitable light and cheap uniform for such occasions It is therefore to be quite plain with the Regimental Cuff, Collar, and Buttons; but without lace or embroidery.

Officers are also permitted to wear as an Undress Cap, along with the Swiss Jacket, a plain light Chakos with an Oil-skin Cover, but without scales or feathers

G. O. C. C. APRIL 8, 1822. Several instances of a wide deviation from the Regulations in force respecting uniformity in Dress having been lately brought to the Commander in Chief's notice, His Lordship finds it necessary to call the attention of Officers Commanding Divisions, Stations, and Corps, to the existing Orders on this subject; and to desire that they will see them obeyed by all under their Command. It must be kept in mind that no inferior authority is competent to sanction any departure from the Rules laid down by the Commander in Chief in

General Orders; and no Article of Dress or Equipment ought to be adopted, or altered, in any Corps, without His Excellency's authority being previously obtained.

2. His Lordship desires to take this opportunity of explaining some points relative to the Orders regarding Dress, which appear not to be clearly understood, and to add one or two Regulations which are wanting.

3. The Regulations regarding Military Dress and appearance were never intended to apply to Officers when engaged in Field Sports, or in active recreations, (such as Fives or Cricket;) but those who go out for Morning exercise about the Station, are expected always to appear in a Military Uniform. The Regulation Undress Jacket and Cap (with a Great Coat when the weather requires it) furnish a Dress which is perfectly convenient, and well adapted for such occasions.

4. On visits of Ceremony, and on other public occasions where Officers (not on Duty) are expected to appear in full Uniform, the Sword may, at the option of the Officer, be worn under the Coat, attached to a Waist Belt of narrow white silk, without any plate. The Coat may be worn open; and the Sash is dispensed with.

5. The Commander in Chief is disposed to allow every reasonable indulgence on account of the Climate—During the Hot Season therefore, His Excellency does not require that Officers who are not on duty, shall wear their Regimentals during the forenoon, except on occasions of Ceremony; but on the other hand, he expects that no person shall go abroad in the Evening without being properly dressed in his Uniform. Loose Trowsers or Overalls with Ancle Boots have been permitted as an Undress, but on all occasions of Dress or Ceremony tight Pantaloons (of White Kerseymere, Web, or Cotton, according to the Season) and half Boots are to be worn.

6. Uniform great Coats are authorized to be worn by Officers on the Line of march, on Out-Posts, and on all duties of fatigue. Those for the Infantry to be of Regulation Grey, and similar to those worn by Officers of His Majesty's Regiments of Foot, Cavalry and Staff Officers to wear blue great Coats, similar to those worn by Officers of Dragoons and by Staff Officers in His Majesty's Service.—The Officers of Artillery are also to wear Uniform Blue great Coats. No alterations in the patterns now adopted is to take place without authority from Head-Quarters; and after the 1st of October next, no Pelisses or Cloaks, or any other but the Regulation great Coat now prescribed, is to be worn by Officers on the Line of March, or on duty.

CODE OF REGULATIONS.

The Modification and Changes in several of the Regulations which were proposed to the Members of the Military Widows' Fund in 1820, having been adopted and being now in force, it was resolved at the General Meeting held on the 1st May, 1821, to incorporate them with the old rules, and thus to compile into one body, the whole of the existing REGULATIONS OF THE BENGAL MILITARY WIDOWS' FUND; which the DIRECTORS have accordingly done and now publish for general information.

1st.—All persons making donations to the Fund, shall be considered as Friends and Patrons of the Institution

2nd.—Officers in the Honorable Company's Military Service, Chaplains and Surgeons on the Bengal Establishment, are alone admissible into the Society.

3rd. All Commissioned Officers, Chaplains and Medical Officers (whether attached to the Military or Civil branches, or to the list of Assistant Surgeons who have given up promotion) are at liberty to subscribe to any of the ranks or classes of the Fund; on paying the donation established for such rank, and in all respects complying with the existing Rules of the Institution, as laid down for such classes.

4th. The following are the rates of monthly payments to the Fund from (*unmarried*) SUBSCRIBERS and from (the *married*) MEMBERS of the Fund.

MEMBERS.		SUBSCRIBERS.	
Colonels, per Month Sonat Rs.	60	Colonels, per month Sonat Rs.	20

5th. Officers who have not contributed to the Fund by monthly subscriptions for *five* years before they become Members, are on that occasion to pay a donation according to the following Table, proportioned to the time they have subscribed.

Table of the Donations from Members Subscribing in their Regimental Rank.

Lieutenant Colonel	1800	1200	600	300
Colonel	3000	2000	1000	600

6th. Five years continued subscription in any rank in immediately preceding marriage entitles an Officer to admission as a member of that Rank, without paying any donation; but in the event of promotion previous to becoming a Member, he must pay the sum fixed for Members on their promotion by Rule 13th, together with arrears of the difference between his actual subscription for five years, and that of the higher rank in which he is to be admitted a Member.

7th. *Unmarried Subscribers* are not required to continue their subscriptions while on Furlough, and by renewing them immediately upon their return, they resume their place in the Institutions with all the benefits which the preceding Rules (5 and 6) confer upon the class of old Subscribers.

8th. No married Officer shall be admitted as a Member, whose wife is not actually residing in India at the time he makes his application.

9th. All married Officers who may wish to become Members of this Society must signify their intention to the Directors through the Secretary within three months after their marriage, or the arrival of their wives in Bengal

10th Married Officers who may neglect to apply for admission within three months after their marriage or after the arrival of their wives in Bengal, shall, upon being admitted, pay double the monthly subscription of Members of their own rank for the months which have elapsed since their marriage, or the arrival of their wives in Bengal; and also in addition to the donation which they are liable to pay by the foregoing Regulation, shall contribute in the following proportions:

Lieutenant Colonels and Members of the Medical Board -		600
Majors, Superintending Surgeons and Chaplains, - -		400
Captains and Surgeons, - - - -		250

11th. Officers and others, already Members of the Fund, are permitted *now or at any future time*, to become Members of a higher class, on paying the prescribed donation;* and on otherwise complying with the existing Rules for such higher class, in all respects as if they were promoted to superior rank in ordinary course; pro-

vided always, that on every occasion of an officer desiring to subscribe to a higher class, and thereby to increase his premium and risk he do furnish a fresh certificate of health in the prescribed form.

12th. Members to whom it may be inconvenient to continue high subscriptions, are at liberty to descend to a lower class in the scale, but should they wish to rise *again* to a higher class, they are to conform in *every respect* to Articles 14th and 16th in regard to certificate and donation.

13th. Members subscribing to their own rank, shall pay the following sums on their admission to the next higher rank after promotion.

Subaltern to Captain,	-	-	-	Sonat Rupees, --	100
Captain to Major,	-	-	-	-	150
Major to Lieutenant Colonel,		-	-	-	200
Lieutenant Colonel to Colonel,			-	-	400

14th.—The following Table shews the rates of Donation payable by Members who desire to subscribe in a rank higher than their own proportioned to the time that they have been Members in the inferior rank.

	Under two years subscription.	*After 2 years.*	*After 3 years.*	*After 4 years.*	*After 5 years.*
From Subaltern to Captain - - - -	300	250	200	150	100
—— Captain to Major - - - - -	450	375	300	225	150
—— Major to Lieutenant-Colonel - -	600	500	400	300	200
—— Lieutenant Colonel to Colonel -	1200	1000	800	600	400

Officers wishing to rise two steps at once, to pay the proportionate donations taken from the above table form the first step; and for the second step that in the *first* column, as they intend to pass at once through the intermediate ranks—Thus a Lieutenant who has subscribed *as a Member* for three years, and who wishes to subscribe as Major has to pay—200*450 650 Rupees.

15th.—As the system of holding place in the classes of the Fund, and of rising therein commensurately with promotion, is abolished in the favor of the system of unlimited subscription in any rank, so henceforward no Member of one class will rise to a higher class *as a matter of course* on his promotion in the line of his profession. He will retain his actual risk and place in the Society or move to a higher, according to his convenience but together with *increased premium and to warrant the increased risk* on the part of the Fund, he must furnish a fresh certificate for every rise of class.

16th.—The stability and welfare of this Fund, and of all associations for similar purposes mainly depending on the undoubted goodness of the lives which it covers, and the risks which it undertakes, it is essential to declare most distinctly, that no applications for *new or increased* risks can be granted when the Individuals are on actual service, or serving in places notoriously unhealthy, or under the influence of Epidemic Diseases. The Directors are therefore compelled to reserve the fullest power of rejection; but they will state their reasons for the exercise of this power on their proceedings, and *if desired* to the party so rejected.

* See Appendix.

The following corrected forms of Certificate are established for the future in lieu of those formerly in use, and is to be signed by two* Medical Officers:—

Regulations for the admission of orphans sanctioned by the Army, and ordered to have effect from the 1st February 1829 at a Meeting of the General Management, held the 24th December 1828.

I That no child be admitted who shall be possessed by inheritance, bequest or otherwise, of the sum of sicca rupees 7,000 (seven thousand), or an annuity yielding sicca rupees 420 (four hundred and twenty).

II. That no child possessed of any property less than the above sum shall be admitted unless the amount shall be lodged for its use and benefit in the society's funds.

III. That no child of any subscribers, dying intestate, shall be admitted, if on inquiry there shall appear to have been (after payment of lawful debts, and adequate provision made for the mothers property remaining to the estate, equal to making a provision for and which might have been bequeathed to such a child.

IV. In any case when an officer may die, leaving a natural born child or children, and possessed of property sufficient to preclude the children from the benefits of the institution, and such officer shall not by will make such reasonable provision for these children as his circumstances may enable him, such children shall not be entitled to the benefit of the institution.

V. That when, in the will of any subscriber, part only of his children are provided for, and others either excluded by name or otherwise not noticed in the provision, such omission arising manifestly out of the intention of the testator, such exclusion or omission shall be considered as invalidate the claims of all the children on the institution.

VI. That all cases of capricious or unequal provision, which by favouring the mother preferably to the children or one child in preference to another, shall appear calculated to throw all or any part of a subscriber's family unnecessarily on the fund, shall in like manner, as in the foregoing article, be considered to invalidate the claims of all.

VII. That any provision by will for the widow of a subscriber greater than 3-5ths (three-fifths) of the property to be devised when there shall be only one child, ½ (one-half) where there shall be two, and 1-3d (one third) where there shall be any greater number of children than two; the remainder being in all cases considered the property of the child, or (in equal portions) of the children, shall be considered unequal, agreeably to the two foregoing Articles and invalidate the claims of the children accordingly Provided always, that a provision for the widow, to the amount of 12,000 sicca rupees (sicca rupees twelve thousand), shall not be held to invalidate the claims of the child or children, although such sum may be more than three-fifths, one-half, or one-third of the property devised.

VIII. That in all cases of children born not in wedlock, any provision for the mother exceeding sicca rupees 20 (sicca rupees thirty), if a native; if European, sicca rupees 50 (sicca rupees fifty) per month, the principal of such sum in all cases to be secured to the child or children, shall be considered in the same light as the above and invalidate all claims upon the institution.

IX. That subscriptions for the families of deceased subscribers are in all cases to be regarded as available sources of relief to the funds of the society and in that view are to be considered of, and judged by the foregoing rules, in the same manner as any other disposable property, *with this only exception*, that whereas such subscriptions are for a joint benefit, and lodged in the hands of trustees, it shall not be indispensible that the orphans' portions (estimated as above) be paid as capital sums into the society's funds; but it shall be sufficient that the interest upon them be from time to time duly paid by the said trustees into the society's treasury, so long as the orphans continue an expense to the institution, to be appropriated to their maintenance, whether in Europe or in India.

X. That should such children be allowed to remain with parent or friend, the interest on their shid portions will be calculated in part payment of the regulated monthly allowance, the society regularly paying or receiving the balance; but should they be placed at Kidderpore, or under the management in England, the amount of interest on their several shares (calculated as above) must be paid into the funds of the society, on failure of which payment during a period exceeding 12 months, the said orphans shall be liable to be struck off the books of the institution.

XI That with a view to obtain the most correct information possible, as well on the foregoing as all other points affecting the interests of those children who may be offered to their guardianship, the general management will and do expect (besides the customary affidavit) the fullest information from executors and others, and an unreserved communication of testamentary and all other documents of which the nature of the specific cases may admit, and do reserve to themselves the entire right conveyed to them by their original constitution, of rejecting orphans tendered without such information and documents; or if, on reference to them there shall appear any evidence of design unnecessarily and intentionally to burthen the fund, by imposing on it those who might and ought to have been otherwise provided for.

XII That the marriage portion to female orphans shall in no case exceed sicca rupees 2,000 and if the ward claiming her dowry has property to an amount exceeding sicca rupees 3,000, the Society will advance a sum that shall increase the amount to sicca rupees 5000.

4. These deductions will be regularly noticed in the Pay Office Statements, furnished to each Troop, Company, and separate Establishment, which are directed to be henceforth regularly copied into all Pay Abstract Books of Corps, Companies, and Departments;—the copy being authenticated by the signature of the Officer disbursing the Pay. As voucher of all Bank remittances made through the Pay Master, will thus be preserved with Corps respectively. It is however to be understood, that the Bank will receive any Sums Individuals may prefer remitting, or paying in, direct.

5. In European Regiments or Detached Portions of European Corps, and in all situations where independent Saving Banks may be established, aggregate remittances will be made of any Cash, delivered direct on such account to Pay Masters, or of any Sums which Officers may intermediately authorize the Pay Master to deduct from their Abstracts on account of such Banks, in like manner, as in the case of individuals, a separate account being opened by the General Bank with those Institutions; the interior details of which will be conducted under the direction of the Officer Commanding, by a Committee or other Regimental management, to whom their annual account with the General Bank in Calcutta, will be rendered.

6. The accounts of the General Military Bank are to be closed on the 31st December of each year, that of each Individual or Regimental Bank, being transmitted to the party or parties concerned, as soon after as practicable, and the General Accounts of the Institution will annually be laid by the Directors, before a meeting of all Constituents at the Presidency to be held in the month of January; due notice there of being previously given in the Government Gazette

7. The money received monthly in the Bank will at the discretion of the Directors, be lent out to the best advantage upon the pledge or deposit of Government Paper, Public Bank Shares, or other good Securities, so as to realize the highest rate of Interest, consistent with perfect safety.

8. The direction of the affairs of the Bank will be entrusted to 12 Directors, 3 of whom will be appointed by Government, and the remaining 9 elected by the Constituents of the Bank, at the General Annual meeting in January, in the manner hereafter prescribed, by the Rules of the Institution.

9 In order to afford every facility to the Directors in communicating with the Pay Department, and with the Commander in Chief, and to enable His Excellency and Government, at all times to ascertain, that the concerns of the Institution are conducted according to the Regulations, the Governor General in Council is pleased to appoint the following Officers, to be Directors Ex-Officio; viz. The Adjutant General of the Army; The Military Auditor General: The Accountant Military Department.

10. It is however to be clearly understood, that it is not the intention of Government, to interfere in the management, exercise any supervision over the Accounts, or to obtain any knowledge of the Payments made by Depositors

11. At the recommendation of His Excellency the Commander in chief, the Governor General in Council is further pleased to appoint the following Officers and Gentlemen, who have accepted that Office, to be Directors, until the first Annual regular Election in January 1822, and they are authorized to chose a President from among their number, viz.

Lieutenant Colonel J PATON, Quarter Master General of the Army.
Major L. WIGGENS, Assistant Military Auditor General.
Captain R. H. SNEYD, 1st Regiment of Cavalry.
Captain W. S. BEATSON, Assistant Adjutant General of the Army.
Captain W. CUNNINGHAM, 27th N I.
Major GEORGE FOLLORK, Asst. Adjt. Gen. Artillery.
Dr. I. ADAM.
F. T. HALL, Esq.
Captain, G. YOUNG.

12. Government is likewise pleased to accept the gratuitous services of Mr. Ballard, of the firm of Messrs Alexander and Co, as Secretary to the Bank, and to appoint that House Treasurers to the Institution.

13 The following Rules for the internal government of the Bank, having been sanctioned by the Governor General in Council, are published for the information of the Army.

REGULATIONS, FOR THE BANK OFFICE BUSINESS.

1. The Treasurers are to keep the Bank Accounts, in a distinct and separate set of Books the whole of which are to be produced at the periodical Meetings of the Directors, or at any time if required, by a quorum of them. Individuals being allowed at all times to inspect their own accounts, and the Secretary will submit for the approval of the Directors, the description of Books and number of Writers required with their Salaries which being authorized, is not to be altered without due sanction.

2. The Secretary will circulate to the Directors, on the 5th of every Month, an Abstract Statement of the Receipts and Disbursements of the Month preceding and suggest the best apparent method of investing the floating balance. He will at the same time circulate the joint Stock Accounts, which are to be kept in a separate Ledger, expressly appropriated thereto, that the Abstract Statement may be compared with it.

3. All Bonds Deeds, Mortgages, or other Papers and Documents having reference to pecuniary transactions, and being Bank Stock or Securities, are to be made out in the names of the Directors, but mere receipts may be signed by the Secretary, for the Treasurers

4. The Accounts of the Institution are to be made up to the 31st of December, annually and the Accounts Current of Depositors forwarded with all practicable expedition, after that date.

5 There shall be quarterly Meetings of the Directors, for the inspection of accounts and such other business, as may be brought before them ; special Meetings when required for any urgent business may be summoned by the President, or any three Directors.

6 The signatures of three Directors shall be considered adequate to sanction any measure and to authenticate an account.

7. The Office of President to be annual ; and three Directors to go out annually, by rotation. The President will be elected by the Directors themselves, but the three seats in the Direction annually vacated, will be filled up by the votes of Depositors, in the manner prescribed in Rule 15.

FOR THE GUIDANCE OF DEPOSITORS.

8. Remittances in Calcutta Sicca Rupees, may be made to the Bank for Deposit either through the pay Masters, as authorized by Government, or through any other channel : but no Remittance will be received under Ten Calcutta Sicca Rupees, or, containing the fraction of a Rupee.

9. All sums received will be immediately carried to the Credit of the Depositor, and held so far at his disposal, as that Bills drawn, not being in excess to the actual Credit, balance of the Account, will be accepted at any time ; but for the sake of preserving simplicity in the Accounts, and of allowing the aggregate Stock to be advantageously employed, such Bill will be payabled only at two fixed periods, viz 5th January and 5th July—Officers who obtain leave in General Orders to go to Sea on Sick Certificate, will however be allowed to draw any part of their Deposits by bills, at ten day's sight.

10. It has been determined by the Directors, that the aggregate amount of deposits, shall be employed as a joint Stock, to be vested in Government Securities, or otherwise, as fast as it be accumulated in sufficient Sums. The profit arising from this employment of the Bank, after deducting the Office expences, being divided among the share holders according to their respective proportions, and carried to the Credit of their Accounts.

11. The half yearly Drafts of any share holder, being under Sicca Rupees One Thousand (1,000) will at the periodical payments, be discharged in Cash, but if their aggregate exceeds that amount, it will be optional with the Directors to make Cash payments, or to meet the demand by a portion transferable Stock ; and in all such cases, as in closing Accounts exceeding the above Sum, they reserve to themselves the power of making that transfer either at the rate which the said Stock was purchased, or at the rate of the day, or at par, as may appear most equitable.

The Drafts of Individuals will be dicounted by the Bank on its own account whenever the amount of capital in hand admits of such accommodation.

12. The foregoing Rules regarding the periods and modes of payment of Demands on the Bank, are not to be considered applicable to such as are granted by one Depositor, in favour of another, or when the payment constitutes the opening of a new account: such transaction being a mere transfer in account, will be negotiable, at any period.

13. An account Current will be furnished to each Depositor annually, and be open at all times for his inspection; but no person will be admitted to see another's account, without written authority to that effect. All Deposits being regularly entered in the Pay Office Statement, or acknowledged by the Secretary, every one will possess the means of always knowing the state of his own account. No letters which merely contain such enquiries, can therefore be attended to, but references on points requiring explanations, will be received and duly submitted to the Directors.

14. All Letters for the Bank are to be addressed to the Secretary in the prescribed form and Postage of all direct correspondence will be charged to the Individual.

15. It having been determined, that the Office of President shall be annual, and that three Directors, not being such Ex-Officio shall go out annually; the Directors to fill vacancies being chosen by the depositors at large, a list of Gentlemen, willing to undertake the duty, will be published to the Army 2 months before the Annual Meeting in January; after which the 3 new Directors will be chosen by a Majority of votes; absent from the Presidency, voting either by letter to the Secretary, or by Proxy.

MARINE BOARD,

STRAITS OF SINGAPORE.

FORT WILLIAM, DECEMBER 27. 1822.

The Most Noble the Governor General in Council is pleased to direct, that the following Copy of a Notification received from the Government of Prince of Wales Island, be published for general information

PUBLIC NOTIFICATION.

The Honorable the Governor in Council is pleased to direct, that the following instructions for passing through the North East Entrance into the Straits of Singapore, from the Straits of Dryon, by a Route newly discovered by the Commander and Officers of the Honorable Company's Cruizer Prince of Wales, called "Phillip's Channel" be published for general information.

Directions for passing through the North East Entrance into the straits of Singapore, (from the Straits of Dryon,) or Phillip's Channel.

After clearing "the Middleburgh Shoal," either to the Eastward, or Westward a direct course may be steered for Cap Island, which lays near a Bluff Head Land on the Eastern shore. This Island bears, North East by North from the centre of the Middleburgh, Shoal and North North East ½ East from the centre of Red Island; on the bearing there is an extensive Reef of Rocks, distant one mile to the North West of the Twins, with a working wind and standing to the Northward, a Vessel ought not to approach too near it: this Shoal of Coral Rocks, is dry at low water, spring tides; when on it, the North passage Island note South, Sabon Hill West, the Island of Red Island, South and by West, the soundings are from ten to seventeen fathoms round it, steep too After leaving Red Island, Pulo Doncan is the first Island that will be distinguished from the groupe of Islands forming the Eastern shore. Pulo Doncan are two low wooded Islands bearing North East ½ North distant eight miles from Red Island; in passing it to the Westward, it ought not to be approached nearer than one mile, as there are some Rocky Reefs, which surround it; from hence cap Island will be seen, and bears North distant four miles and a half from Pulo Doncan, the soundings are from twelve to seventeen fathoms cap Island or Rock so named from its appearance, is a Rock of perpendicular sides, flat at the top, and about forty feet in height and surrounded by a Reef of Rocks projecting out about three hundred yards, the soundings near it are from ten to fourteen fathoms, decreasing as you near the Island between it and the "Bluff Head Land," is a Reef of Rocks on which account it would not be advisable to go to the Eastward of cap Island.

When abreast of cap Island, Long and Round Island, and the Rabbit and Coney may be distinctly seen. a direct course may be steered to pass in Mid channel, between Round Island and Eastern Shore, which is three and a half miles across, the soundings are from seventeen to twenty-two fathoms. Long and Round Islands ought not to be approached nearer than three quarters of a mile, as three are Rocky Reefs round them. In working and standing to the Westward of the South end of Round Island go no further to the Westward, than to bring the North to the West end of Long Island, or with the centre of the Rabbit, as there are four Rocky Reefs to the South West of Red Island; when on the South East end of the Southern Reef in a boat, Red Island was in one, with the Rabbit, the centre of Round Island East ½ South, the Soundings are irregular near these Shoals and Long and Round Islands.

After passing Long and Round Islands, Singapore can be distinctly seen, and a course ought to be steered for St John's to clear the Buffalo Rock and a patch of dry Rocks to the South West of the Buffalo.

By Command of the Most Noble the Governor General in Council,

C. LUSHINGTON,

Acting Chief Sec to the Gov t

A

LIST

OF THE

BRITISH & FOREIGN

INHABITANTS OF CALCUTTA

AND THE

Upper Provinces,

CORRECTED TO

DECEMBER 31, 1823.

The generally acknowledged want of a full and correct List of British Inhabitants has been so much felt and so often complained of that the Compilers of this Work have taken very considerable pains to make it meet the expectations which have been formed of it—and although they are satisfied it is as complete as circumstances will permit, they are fully sensible that some errors may still exist:—they therefore solicit all who feel an interest in its accuracy, and may be able to give any additions or corrections, to favor the Publishers with communications on the subject and thereby enable them to make the necessary alterations; and as the whole List is kept standing in Type and published three times in the course of the Year they hope, in time, to make it as perfect as the state of society in this Country permits or requires.

To enable the Sheriff of Calcutta, The Coroner and others concerned, to distinguish who are liable to serve on Juries—the following distinctive marks have been attached to the names of persons who are not liable to be summoned on that duty, viz.

* *Born in India.* † *Foreigners.*

Should these marks be omitted to any name or improperly affixed to those who are strictly speaking "British Subjects" and consequently liable to serve on juries—the necessary corrections will be immediately made on beeing furnished with the means,—and the communication thankfully acknowledged.

All individuals whose occupations, dates of arrival, or residences are incorrectly stated, or wholly omitted for want of information are requested to communicate on the subject with Messrs. Samuel Smith, and Co. at the Hurkaru Library, who will be happy to make the necessary additions or alterations, or attend to any reasonable suggestions, which may have for their object, the improvement of this List.

It appearing that the orders of the Honorable the Court of Directors contained in their General Letter under date of the 21st August, 1801, respecting the quantity of Baggage which Passengers proceeding to Europe on board of their ships, are permitted to carry, have in various instances been imperfectly attended to, and great inconvenience having resulted from persons proceeding to England carrying with them a greater quantity of Baggage than is allowed by the Hon'ble Court, the following, Regulation of the Hon'ble Court, regarding the quantity of Baggage permitted to be carried by Passengers proceeding on the Hon'ble Company's Ships, and the rules which are in future to be observed for its Shipment, are published for general information.

Widows proceeding to England are in like manner restricted from taking greater quantity than one half of the Tonnage prescribed for a Gentleman of the same rank as their deceased Husband, exclusive of the allowance of one Ton for each Child.

The Public are hereby informed that the Commanders of the Honorable Company's ships are not only positively prohibited from receiving on board of their ships any Baggage, except under an order from the Sub Export Ware house Keeper or any Officer of the Ware-house, but held also responsible for the consequence of taking any Baggage in excess of the authorized quantity, and made to pay freight for excess so taken at such rate as the Honorable Court of Directors may deem proper.

REGULATIONS.

1 No letter or parcel, (such as are imported by sea, and native letters excepted,) will be received at any post office, unless accompanied by the postage which they bear, in sicca rupees.

2. No package exceeding 12 sicca rupees in weight, or 15 by 12 inches in size, and 12 inches in depth, will be received at the general post office, unless paid for accordingly.

3. No money, jewels, watches, trinkets, or valuables of any description, will be received for transmission, either by the letter dawk or baugy. The rule does not extend to bank notes, which the person sending is recommended to cut in halves, and forward the part separately by successive dawks.

4 No persons but belonging to the department, can be admitted into the interior of the post office, or be allowed of themselves to examine the records. All complaints, or applications for information must be made to the post master general in writing.

5. Persons addressing the post master general respecting any delay in the delivery of their letters, are requested to transmit, at the same time, the envelopes of such letters, bearing the post office stamp, which specifies the date on which the letters were issued for delivery.

6. No person can be permitted to take the letters from the peons, except in the regular course of delivery; and it is requested that the peons may experience as little detention at the doors of houses as possible.

7. Persons receiving letters are required to pay the amount of postage marked on them; and if they have occasion to complain of any surcharge, they must state their complaint officially to the post master general. Should his decision not prove satisfactory, they are at liberty to appeal to the governor general in council.

8. All letters refused by the party to whom they are addressed, and all ship letters transmitted, from subordinate stations to the general post office on which the ship postage has not been paid, shall be returned to the office from whence they were despatched and the writer, or the person who brought them to the office, shall be required to pay the postages both to and from the place of address. If the writer cannot be discovered, the letters shall be entered in a list, which shall be exposed by the post master in the most public part of his cutchery, and a copy of which shall be transmitted from time to time to the post master general, who shall advertise the letters in the Government Gazette, with notice that they will be delivered to the writers, on payment of the postage due on them.

9. Should the writer of a returned letter refuse to pay the postage due on it, the post master is authorized to detain all future letters to such person's address, until the demand in question shall be liquidated. The same rule is applicable to all other cases of refusal to pay postage.

10. Any person opening a letter or envelope, shall be bound to pay the postage of the same, whatever may be the contents.

11. Persons exempted from the payment of postage by their official situations, having occasion to write to non-exempted persons on the private business of the latter, shall write on the envelope, '*bearing postage*,' in which case the amount is to be collected from the receiver. Letters from out stations where no person duly qualified to collect the postage is established, will also be received 'bearing postage.'

12 The post office is not answerable for the loss of property contained in any letter or parcel, which may be transmitted by dawk

or bangy. For the greater security of such property, however, the clerks, &c. are strictly prohibited from delivering back to any person, or under any pretence, letters or parcels, which may once have been lodged in their offices

13. A treasury podar is appointed to attend daily at an office contiguous to the entrance of the general post office, for the purpose of exchanging rupees into pice, at the established rate of 64 per rupee, for the accommodation of persons delivering letters into the office, who may not have brought the exact sum assessed on them.

14. The general post office is open for the *receipt and delivery* of letters and for replying to inquiries from 10 a. m. to 1 p. m every day, Sundays excepted; and for the *receipt* of letters only, from 3 to 6 p. m. No newspapers will be received after 5 p. m

15 Travellers may be furnished with dawk bearers, on application at the different post offices, where tables, exhibiting the charge and estimated distances to all the principal stations, are constantly exposed for public inspection.

INLAND POSTAGE.

1. All letters not exceeding 1 sa wt. are to be charged as single letters according to the rates specified in the annexed table of letter of postage; those exceeding 1 but not exceeding 2 sa. wt, twice the amount: and so on in proportion as far as 25 sa. wt. above which no letter or parcel will be received for transmission by dawk.

2. Registers, pamphlets, vouchers, accounts, parcels of law papers, or news papers from Europe, superscribed, and attested by the signature of the person sending them as such, are received for transmission by dawk, at the rate of 3 sicca wt as one, if not exceeding in all 25 sicca wt, i e from 1 to 3 sicca wt, as a single letter, from 3 to 6 as double, from 6 to 7 as treble, and so on to 25. Should such parcel however be found to contain letters, the whole will be charged according to the letter rates of postage.

3. All letters or parcels covering Company's paper, ought to be registered at the post office

4. The postage of letters to Madras, and places under that esta blishment, is levied only to Ganjam.

5. Natives have the option of paying only half postage on delivery of their letters at the different post offices, the other half remaining to be collected from the persons to whom they are addressed. This rule does not apply, however, to letters addressed by natives to officers of government, or to places beyond Ganjam;—if to Madras, they pay to Ganjam only; and full postage, if to Hydrabad, Bombay, and Ceylon.

POSTAGE ON SHIP LETTERS.

Ship postage, according to the following rates, is charged on all ship letters whatever, whether imported or exported, letters to and from the members of government and the chief justice only excepted: viz

One sicca weight,	....	....	2	annas,
From 1 to 2 sicca weight,	....	....	4	———
—— 2 — 4 ———,	....	....	8	———
—— 4 — 8 ———,	....	....	1	rupee.
—— 8 — 16 ———,	....	....	2	rupees.
—— 16 — 25 ———,	....	....	3	———

Where the weight exceeds 25 sicca weight, 2 annas additional are charged for each additional sicca weight.

LETTERS FOR EXPORTATION.

1 When letters for exportation are delivered into any of the post offices at the upper stations, they must be superscribed "Europe" or "ship letters;" and the inland postage to Calcutta, as well as the ship postage, must accompany them.

2 In like manner, letters for transmission by sea, via Madras, Bombay, or any other port of India, must be accompanied by the full inland postage to such port, as well as the ship postage.

3 Letters are received for exportation by sea, to any part of the world frequented by ships from India, and all such letters shall be registered at the general post office, and forwarded by the ship which may be designated in the address; or if such ship shall have sailed, they shall be returned, bearing the inland return postage. Letters not designated for any particular ship, shall be forwarded by the first ship that may be despatched.

4. Packets containing newspapers, pamphlets, accounts, law papers, &c. if left open at each end, or bearing a superscription specifying their contents, with the name of the person who forwards them are received for transmission by sea, at the rate of one third of the letter postage. If found to contain any letter or writing, however the full postage will be charged.

LETTERS IMPORTED.

1. When letters imported by sea, are transmitted to any of the out stations, the persons to whom they are addressed, must pay the inland as well as the ship postage.

2 The inland postage, however, collected on ship letters, forwarded by mail to the remotest parts of the country, is limited to the amount of the ordinary postage levied on letters to Cawnpore provided the weight of such letters does not exceed 8 sicca weight. The following rates of postage to Cawnpore, exhibit, therefore, the highest rates of ship postage, assessed, on letters of the description, to whatever station they may be transmitted; viz.

	Ship Postage.		*Inland ditto.*		*Total.*	
	R.	*A.*	*R*	*A.*	*R.*	*A.*
Single Letter, 1 Sa. Wt. . .	0	2	0	11	0	13

Ditto 6 & under 7, . .	1	0	4	13	5	13
Ditto 7 to 8, . .	1	0	5	8	6	8

3. All ship letters weighing more then 8 sicca weight, are forwarded by bangey, and charged as bangey parcels; unless the parties to whom they are addressed shall have expressed their desire in writing to have them conveyed by the mail, in which case they are entitled to the indulgence held forth in the foregoing clause, but must pay the full inland postage.

4. Ship letters, received by the mails from the other presidencies, are subject to the payment of only half the usual ship postage, with the whole Inland postage.

5. No Ship letters or parcels however, addressed to persons residing under this presidency, will be forwarded to them by dawk from the post offices at any of the other presidencies without special instruc-

tions to that effect. Any such letters, &c. which may be received at the post offices in question, will be kept for the first safe conveyance to Calcutta by sea.

6. Ship parcels, deliverable at Calcutta, containing newspapers, pamphlets, vouchers, or law papers, are charged at the following rates, viz.

To	25	Sicca Weight	...	Rupees	1 0
—	50	. . . ditto,	...	....	2 0
—	100	. . . ditto,	...	....	3 0
—	150	. . . ditto,	...	....	4 0
—	200	. . . ditto,	...	....	5 0
—	250	. . . ditto,	...	....	6 0

7. To entitle the party however, to whom any such parcel may be addressed, to the benefit of the foregoing, Regultion, it is necessary, that he should on the requisition of the post master, subscribe a written declaration signifying that the parcel in question contains only papers of the above description; and he must further consent if required, to the parcel being opened at the post office, otherwise, it will be charged according to its weight as a ship letter.

8. All ship parcels, containing newspapers, &c. addressed to persons residing at the upper stations, are transmitted by bangey, at the usual rate of bangey postage, in addition to such ship postage as may be due on them. Where instructions are given to that effect, however, such parcels may be transmitted by dawk, the party defraying the full dawk charges on the same.

9. A bounty of one anna is paid by government to masters of ships and others bringing them from sea, for all ship letters delivered in Calcutta, which they may bring to the post office.

BANGEY POSTAGE.

1. All parcels not containing letters or articles of value, and also letters exceeding 21 sa wt. are received at the different post offices for transmission by bangey. On such parcels, &c as do not weigh more than 50 sa wt. single postage is charged, according to the rates specified in Table of Inland Rates and Bangey Postage; on such asexceed 50, but do not exceed 100 sa. wt. double postage is levied, and so on in proportion.

2. Letters or parcels exceeding 21 sa. wt, addressed to stations to which no bangey is dispatched, will be forwarded by dawk, at the bangey rates of postage.

3. Any person attempting to forward a letter under the prescribed weight by the bangey, in the shape of a parcel or package becomes liable to the full postage chargeable on a letter of 21 sa. wt. And when any parcel is delivered for transmission by bangey, the post master is authorized to call on the party from whom it comes, for a written declaration, signifying that such parcel is *bona fide* of that description, to which the bangey conveyance is appropriated. The above rule of course is not applicable to the case of ship-letters, exceeding 8 sa wt.

4. Four bangies are despatched weekly, to the different stations under this presidency, on Tuesday and Friday for government, and on Wednesday and Saturday for the public; bangies are also despatched on every Wednesday and Saturday to Fort St. George and the intermediate stations.

SEPTEMBER 13, 1814.

As the Regulations of this office regarding Overland Letters, published under date the 24th May, 1813, were framed at a time when their transmission could not be effected by a less circuitous route than that of Smyrna and Malta,—and the late happy events in Europe have apparently removed the obstacles which before prevented a more direct correspondence from being satisfactorily maintained between the distant parts of that Continent and Great Britain with India;—The Post Master General considers it may be useful to the Public to intimate that he is not aware of any objection to the dispatch of Letters, under the principal provisions of the abovementioned Regulations, by the way of Constantinople and Vienna. And that for this purpose, it appears to him to be only necessary, that such persons with their Overland Letters from London, or any place in England, to be so forwarded, should clearly write immediately over the addresses on them, these words, namely—' Via Constantinople and Vienna '

Letters with this superscription will be dispatched accordingly:—and it will be understood here, that those which do not bear it are intended to be sent, as heretofore, by the routes of Smyrna and Malta.

J. HALL, P. M. G.

JUNE 1, 1815.

Notice is hereby given, that it has been determined to limit the number of Overland Packets from India to England to three in each year, and to fix the undermentioned periods for their dispatch from Bombay:—

First. That all officers empowered to Frank, in the Civil Department, stationed in the interior, shall forward, on the last day of every month, to the Deputy Post Masters of the Stations whence their official letters are dispatched, a list of all letters transmitted by them, during the month, on the public service, specifying the Officers to whom addressed, the places of their destination, and dates of dispatch to the Post Office, with the following attestation upon honor subjoined to it, viz.

I do hereby certify, that to the best of my knowledge and belief, the above is a correct list of all public letters dispatched under my Signature during the month of—— ——, and that they were *solely* and *exclusively* on the *public service*.

Second That the Deputy Post Masters shall transmit, with their accounts of the same month, to the Post Master General, all lists so received with a declaration superadded on each, signed by himself, that the list has been compared with the entries on the corresponding dates and found correct; or in the event of a want of correspondence with any entry the particulars of it shall be noted at the foot of the declaration in order that the Post Master General may, if he thinks proper, require an explanation of the cause of the difference.

Thirdly. It shall in like manner, be the duty of every Officer entitled to frank Service letters at the Presidency, to forward to the Post Master General, a list similarly attested of the letters dispatched from his office during the month; and the Post Master General shall cause the comparison above described, with the entries to be made; and should any difference be discovered, that Officer shall be empowered to require an explanation of it from the Officer attesting the list.

Fourthly. All public Officers in the interior, shall furnish through the same channel, at the same periods, and in a corresponding form of attestation, lists also of the letters severally received by them, addressing on the public service which the Deputy Post Master shall transmit to the superior Officer, with a declaration of comparison &c. as prescribed in the Second Articles of those rules.

CALCUTTA GENERAL POST OFFICE,—JULY 25, 1822.

CALCUTTA GENERAL POST OFFICE,—AUGUST 17, 1821.

PUBLIC NOTIFICATION.

It having been brought to the notice of Government, by the representation of the Post Master General, through the Board of Revenue, that much inconvenience arises from the prevailing practice of Public Officers inadvertently transmitting to Post Offices Letter Packets and pascels, greatly exceeding the prescribed Weight (of 25 Sa. Wt.) which are of consequence made over for transmission by Banghee thereby incurring delay and probable injury, that might otherwise in a great measure be avoided; the Governor General in Council is pleased to direct as follows:

1st. That the strictest attention be paid in every Department, throughout the Service, to the making up of Parcels, not to exceed the prescribed limitation of Weight.

2dly. That when two or more Parcels of such description are delivered at a Post Office, containing Papers connected one with the other, it will be at the option of the Deputy Post Master to forward them to the Presidency, either by the same Mail if circumstances permit or separately by two or more successive Mails in order that Mails may not be surcharged and their contents rendered insecure, especially in the Rainy Season.

3dly. That as Paper Parcels are not always made up in the most compact form they are susceptible of and altho' there is often an unnecessary expenditure of the Hon'ble Company's Stationery within; the contingent envelope of Letters, and Accounts of importance, is frequently of flimsy Country paper, of the worst kind, forming an inadequate protection to the documents they cover---All Public Authoritieis are therefore hereby enjoined to require of their Executive Officer unremitting attention to these defects, and to the observance of such precautions, as will prevent, for the future, the Dawks being unecessarily loaded, to the interruption of their progress, and to the encrease of very serious inconvenience, as well as unmerited responsibility to the Post Office Department.

By Command of His Excellence the Most Noble the Governor General in Council.

COLIN SHAKESPEAR.

Post Master General.

2dly. All Letters exceeding the above prescribed limitation of weight, shall be forwarded to their destination by the first eligible Sea conveyance that may offer.

REGULATIONS.

Bengal Provident Society.

EIGHTH CLASS.

DIRECTORS.

John Palmer, David Clark, Rod. Robertson, Henry Mathew.

The chief object in view of the original Supporters of this Institution being to afford an opportunity to parents and Guardians to secure a provision to Children on their advancing to the age of maturity by means of a moderate deposit, the period of 14 years was decided on for the duration of each Class as most eligible for such a purpose, and considered especially advantageous for the improvement of property by the powerful operation of interest.

This institution is perpetual, as a new Class, will commence on the 1st of January every year, and a dividend will become due to the surviving Members of the respective Classes on the expiration of the 14th year from that in which they respectively commenced. The dividends will be very handsome, and fluctuate in a greater or less degree with the number of lapses which may occur in each Class but in all cases each Share will yield sufficient to satisfy moderate expectations, and the Society will even meet the views of those who desire larger eventual incomes,—the Regulations admitting of an increase of 20 Shares on each Life.

Shares are Sa. Rs. 200 each for Infants under 6 months, and proportionally higher (not exceeding Sa Rs. 350,) to the age of 27 years, when the rates of premium gradually decrease with increase of age to Sa. Rs. 200. The Subscriptions are deposited at the time of entry, and as no subsequent collections are required thereon, the Subscribers are neither subjected to penalty, nor forfeiture of their subscription; but it is highly beneficial to continue the payments in every successive class as at the end of first 14 years a series of successive devidends will be established, which may be continued for life.

The Eighth Class opens on the 1st January, 1823, and Certificates will be granted until the 31st December next.—Intending Subscribers are therefore invited to profit by early applications for admission, to the Office of Messrs PALMER AND CO. Treasurers of the Society, to the Undersigned, who will supply printed Regulation, of the Society, and attend punctually to all orders.

PART 5.

Coins, Weights Measures Exchange, &c.

The following Remarks from Thornton's East Indian Calculator, an invaluable Work, from which most of the following Tables are extracted, will be the best preface we can offer to this part of our Appendix.

"The account subjoined of Money, Weights, and Measures is almost entirely new. This part of the work cannot be expected to possess equal pretensions to accuracy with the other. The impossibility of attaining that object, under existing circumstances, prevents the Editor from saying more than that it is more correct than preceding accounts, and as perfect as it could be made by a diligent examination of every authentic source of information upon the subject. He has derived great assistance (with permission of the Author) from the *Universal Cambist* of Dr. Kelly, undoubtedly the best and safest authority. The communication he has had with that gentleman, convinces him that implicit reliance cannot be placed upon existing accounts of the Weights and Measures of India; a defect which can only be remedied by the plan adopted, under the authority of Government, with respect to those of other parts of the world, the true proportions of which have been accurately determined by an examination of specimens sent from abroad of the Weights and Measures actually used, accompanied with explanations from the proper authorities on the spot. Accordingly, the Court of Directors of the East India Company have issued orders to their servants in India, to transmit to England verified standards of the Weights and Measures in use throughout their territories, which, when received, are forwarded, for this important and desirable object, to Dr. Kelly, whose talent and qualifications render him the fittest person to be entrusted with the superintendence of this as of the former operation.

"It is obvious that considerable time must elapse before this laborious undertaking can be accomplished. The multiplicity of the different measures of quantity used throughout India, and the confusion which prevails, especially in the interior, with respect to their standard, relative proportions, &c. have been frequently spoken of by travellers, and must greatly embarrass the undertaking. Dr. Heyne states that, in Mysore, almost every Cusbah, or chief town of the district, has Weights and Measures differing widely from those in its neighbourhood. The scales commonly used, he says, are likewise extremely rude and inaccurate, being merely flat baskets suspended from a balanced pole, which is tied to a noose.

"It is remarkable that an attention to this subject is distinctly enjoined by the ancient legislator of the Hindoos:—"Let all weights and measures," says Menu, "be well ascertained by the King, and once in six months let him re-examine them."—*Institutes of Hindoo Law*. Chap. VIII. tit. 403"

Omitting fractions, 335 Bengal Sicca Rupees are the equivalent exchange of 350 Madras Siccas, at which the Public Securities are transferrable; and consequently, 350 Madras Siccas (or 100 Star Pagodas, at 8s. each) being the equivalent of £40, 335 Bengal Siccas should give the same sum. But the interest Bills, payable in London, allow £40 for 320 Bengal Siccas only, at 2s. 6d. each, (the Company's rate of Exchange), which is in favour of the receiver of the Bills 37½ Bengal Siccas, or £4. 13s. 9d. sterling, per £100, against the Company.

Again:—335 Bengal Siccas, at 2s. 6d. each, give £41. 17s. 6d., and 350 Madras Siccas, at 2s. 3d. each, (the Company's rate of Ex-

change), give £39. 7s. 6d.; the former sum being £1. 17s. 6d. *above*, and the latter 12s. 6d. *below*, the nominal equivalent of each, namely £40.

Again:—The gold of the Guinea and Sovereign is of the same standard as that of the Madras Gold Rupee, *viz.* 22 carats fine; and the latter, weighing 180 grains of that gold, exchanges for 15 Silver Rupees of the same weight, which gives 12 grains of gold to each Rupee of Silver, equivalent to 1 grain per Silver Fanam of the late coinage, and 1½ per Silver Anna of the new coinage of that Presidency. Now the Soverign, weighing clear ⅔ of the Madras Gold Rupee, which should fetch, according to the foregoing estimate, a fraction above 80 Rupees, fetches only 8¾ Rupees, according to the Company's valuation of 875 Madras Rupees per £100; a difference against the receiver upon this footing of not less than 132 Rupees upon every £100.

TIME TABLE.

No. 1.—Shews the number of days from any given day in one month to the same day of any other month. It must be observed that in Leap Year, if the end of the month of February be included in the time, one day must be added. If it be desired to find the number of days from a given day in one month to a different day in another, the difference between the dates must be added to, or substracted from (as the case may be) the amount. For Example:—To find the number of days between the 5th of January and 12th of November:—

From 5th of January to 5th of November - -	304 Days.
From 5th to 12th of November - - - - - - - -	7
	311
If it be Leap Year, add - - - -	1
Answer - - -	312

No. 2.—Shews the decimal parts for each and all the days in the twelfth part of a year, consisting of 365¼ days.

COINS, WEIGHTS, &c.

CALCUTTA IN BENGAL.

COINS.—Accounts are kept here in imaginary money, called Rupees, either Current or Sicca, with their subdivisions, Annas and Pice; 12 Pice make 1 Anna; 16 Annas 1 Rupee; and 16 Rupees 1 Gold Mohur. To this currency must all the real specie be converted, before any sum can be regularly entered into a merchant's book. The Company keep their accounts in Sicca Rupees, which bear a Batta of 16 per Cent. against the Current.

The Coins current are Gold Mohurs, with their subdivisions, halves and quarters; Sicca Rupees, halves and quarters; Annas, Pice, and half Pice. The two last are of copper.

In 1766 the Bengal Gold Mohur weighed 179.66 grains, was of the fineness of 20 Carats, and passed for 14 Silver Rupees. The gold was here overvalued, for it passed in proportion to silver, as 169 45 to 1. In 1769 it was ordered that the Bengal Gold Mohur should weigh 190,773 grains, and in this coinage gold was valued to silver nearly as 14 8 to 1; and, by Regulation 35, Anno 1793, it was directed that the nineteen Sun Gold Mohur should weigh 190.894 grains, and contain $\frac{3}{4}$ of a grain in 100 of alloy, and that it should pass for 16 nineteen Sun Sicca Rupees. Here gold is valued in proportion to silver as 14.85 to 1.

Gold Mohurs are coined only at the mint of Calcutta; at the subordinate mints of Benares and Furruckabad, silver alone is coined. The fineness of both metals is the same as English standard gold, $1 \cdot 1\frac{1}{2}$. The following statement shews the present weight, fineness, and sterling value of the Coins, reckoning the value of gold at £3. 17s. $10\frac{1}{2}$d. per standard ounce; and silver at 5s. 2d.

	Grains pure	Grains alloy	Grains gross weight.	Value. £	s.	d.
Gold Mohur.....	187.651	17 059	204.710	1	18	2$\frac{1}{2}$·25
Sicca Rupee	176.923	15.993	191.916	0	2	0$\frac{1}{4}$·25
Furruckabad Rupee...	165.215	15 019	180.234	0	1	11$\frac{1}{4}$·25

By Regulation, 1819, the coinage of the Benares Rupee is discontinued; and the Furruckabad Rupee made the legal coinage of Benares.

It will be observed that the alloy has been increased; a regulation which took place in 1819, whereby much expence is spared in refining. The charge for coining and for refining is the same at all the mints, for silver; namely, 2 per cent, if the bullion be of the standard fineness; but where it differs, a proportion charge of from ¼ to ½ per cent. is made for refining.

See also the Assay Report, 1821—BOMBAY.

The standard of the Bengal money has ever been silver. Gold is occasionally coined, but the great bulk of the currency is silver. The most common silver coin is the Rupee of 1 Sicca, or 10 Massa weight.

These Rupees were formerly called Sicca Rupees only during the year after their coinage, when the batta they bore on Current Rupees was 16 per cent; the second this was reduced to 13, and the third and following years the batta was 11 per cent.; they were then called Sonaut or Sunat Rupees. But with a view to abolish this distinction, all the Rupees coined of late years by the East India Company, have been dated the nineteenth Sun, that is the 19th year of the Mogul's reign; and by Regulation 35, Anno 1793, it was ordered that the nineteen Sun Sicca Rupees should be received as the legal coin of Bengal, Bahar, and Orixs.

There are various other kinds of Rupees to be met with in Bengal, whose fineness and weight are different, though their denominations are the same. From this, and from the natives frequently punching holes in the Rupees, and filling up the vacancy with base metal, and their wilfully diminishing the weight of the coin after coming from the mint, the currencies of Rupees from the different provinces are of different values. This defect has introduced a custom of employing shroffs or money-changers, whose business is to set a value upon these different currencies, according to every circumstance, either in their favour, or their prejudice. When a sum of Rupees is brought to one of these shroffs, he examines them piece by piece, and arranges them according to their fineness; then by their weight; he then allows for the different legal battas upon Siccas and Sounats; and this done, he values in gross by the Rupees current what the whole are worth; so that the Rupee current is the only thing fixed, by which coin is valued.

A Current Rupee is reckoned at 2s. and a Sicca Rupee of account commonly at 2s. 6d.

A Lac of Rupees is 1,00,000; and a Crore, 100 Lacs, or 1,00,00,000 Rupees; and in accounts, sums are distinguished into Crores, Lacs, and single Rupees, by marks or divisions, as in the aforegoing examples.

Cowries, small white glossy shells, are made use of for small payments in the Bazar, and are generally thus reckoned:

4 Cowries	equal to	1 Gunda
20 Gundas		1 Pun
4 Puns ..		1 Anna
4 Annas		1 Cahun, which is about ¼ of a Rupee

But they rise and fall according to the demand there is for them, and the quantity in the Market.

The following is a Table of the different kinds of Rupees Current at the Presidency, with their Relative Value to each other.

MADRAS.

COINS.—According to the old monetary system, accounts were kept at this Presidency in Star Pagodas, Fanams, and Cash. The Pagoda weighed 52.56 grains troy, and was commonly valued at 8s. It was divided into 46 Fanams, each Fanam containing 80 Cash. This was the proportion observed by Government, the Bank, and Agency Houses; but in the shops and bazar exchange, the number of Fanams to the Pagoda fluctuated according to circumstances, from 42 to 46 Fanams.

The Gold Coins were the single and double Pagodas; the Silver Coins were the single, double, and 5 Fanam pieces; the one-eighth, quarter, half, 1 and 2 Rupees; and quarter and half Pagodas; the Copper Coins consisted of 1, 5, 10 20, and 40 Cash pieces.

According to the new currency, fixed by proclamation, dated *Fort St. George*, 7th January, 1818 the Silver Rupee constitutes the standard coin of this Presidency. The public accounts are accordingly converted from the Star Pagoda (the coinage of which is discontinued) into the Madras Rupee, at the exchange of 350 Rupees per 100 Star Pagodas. All Government transactions are now concluded in Rupees.

Remarks on the Coins of Bombay.

SILVER.—The old Bombay Rupee is the same as was coined at Surat under the Mogul Government. It weighs 178.311 grains, and contained 1.24 per Cent. of Alloy. By an ancient agreement with the Nabob of Surat, the Rupee of both Governments was to circulate through both at an equal value; while they mutually pledged themselves to keep up the Coin to its exact standard of weight and fineness. The Nabob, however, did not keep to this agreement: for his Rupees were found soon afterwards to contain, instead of 1.24 per Cent. of alloy, no less than 10 12. and even 15 per Cent. The consequence of this was, that all the Bombay Rupees were carried to Surat to be recoined. This mint was entirely stopped in its silver coinage for more than twenty years, and the circulation of silver was occupied by the Surat Rupee.

In this situation of things the merchants could not afford to coin their bullion here, and therefore Bombay was long without a silver coinage of its own; when Government in 1800 ordered the Surat Rupee to be struck in this mint, and since that time the Rupee has been kept at an equal value in both mints. In both the Silver Rupee weighs 179 grains, and contains 7 97 per Cent. of alloy.

GOLD.—In the year 1774 the Gold Mohur was made of the same weight as the Silver Rupee. It was ordered to be of the fineness of a Venetian, and to pass for 15 Silver Rupees. In this coinage, therefore, 14.9 grains of silver represented one grain of gold; for such is the proportion between the quantity of gold in this Gold Mohur, and the silver in 15 old Bombay Rupees. When the same silver currency had occupied the circulation, this proportion between gold and silver was quite destroyed; so that gold coined according to the regulation of 1774, was now exchanged for no more than thirteen times its weight in silver, and often for much less.

In order to remedy this, and to bring back the Coins of gold and silver to nearly their ancient proportions and their relative value in the market, it was ordered in 1800, that the Gold Mohur should be of the weight as the Silver Rupee, that it should contain the same quantity of alloy, and that it should pass for 15 Rupees.

WEIGHTS.—The English weights being in common use here, and at all the other Presidencies, the following account of their relative proportions may be found useful.

The two principal weights established in Great Britain, are the avoirdupois and troy weights; the last is again divided into diamond and money weights; the grain is understood to be a grain of wheat, gathered in the middle of the ear.

20 mites		1 grain

Diamond Weights.

Are carats, each carat being divided into 4 grains or 64 parts. The ounce troy contains 150 such carats; therefore this carat is 3⅕ grains troy; hence 5 diamond grains are equal to 4 gold grains.

The other weights in use at this Presidency are the undermentioned:—

Silver Weights.

6 chows	make ..	1 goonze, or gr.
2½ goonzes		1 vall
40 valls		1 tola, or rupee
24 tolas		1 seer
32 3/8 tolas		1 lb troy

Silver is commonly sold from 96 to 100 single pice per tola; but computations in money are made by fuddeas, or double pice. The tola equals in weight the silver rupee.

The Bombay great weights are Pice, Seers, Maunds, and Candies, thus divided:—

			lbs.	oz.	drs
30 pice...	make..	1 seer. ....avoirdupois..	0	11	32
40 seers		1 maund.....	28	0	0
20 maunds		1 candy 560	0	6	

Although the above represent the commonly received standard of gross weights at Bombay, yet there are a great number of commodities which are not governed by them, but sold by the Surat Maund, which, notwithstanding it is said to contain only 40 seers, is sometimes 41, 42 43, through all the intermediate gradations up to 46; nor is the Candy uniformly confined to 20 Maunds.

WEIGHTS.—The Chinese Pecul is used in the Bazar. The Bahar weighs 560 lbs. avoirdupois. The Tale is 26 dwts. 12 grs troy.

MEASURES.—The Coyang dry measure contains 800 Bamboos, each Bamboo equal to an English wine gallon.

CHINA AND CANTON.

COINS.—Accounts are kept in Tales, Mace, Candarines, and Cash, thus divided:—10 Cash, 1 Candarine; 10 Candarines, 1 Mace; 10 Mace, 1 Tale.

There is but one kind of money made in China, which is called Petty, or Cash; it is of a base metal, cast, not coined, and very brittle; it is round, about the size of an English farthing, marked on one side with Chinese characters, rather raised at the edges, with a square hole in the middle. They are usually strung a hundred in a string; but they rise and fall according to the quantity in the market, varying from 750 to 1000 Cash for a Tale. Their chief use is in making small payments amongst the lower classes of the people

Spanish dollars are the principal coin current, but other silver coins are occasionally met with. For small change they cut the coins into pieces, and weigh them for which purpose every merchant carries scales and weights with him, put up in small portable wooden cases; they are made somewhat after the plan of the English steelyards, and are called by the Chinese a dotchin. For the purpose of cutting the silver, they have a pair of scissors; and some are so dexterous, that they will cut the quantity required, without having occasion to cut a second time. All dollars which pass through the Hong Merchants' hands bear their stamp, or chop; so that by frequent exchanges, the dollars become soon mutilated, and are then cut up for small change, or melted into ingots. All duties are paid in sycee or pure silver.

In the East India Company's accounts the Tale is reckoned at 6s 8d. sterling; but its intrinsic value is according to the price paid for silver in London.

WEIGHTS.—The great weights are the Pecul, Catty, and Tale, thus divided:—

			lbs.	oz.	drs	
16 Tales..	equal to	1 Catty..	1	5	5.333	avoirdupois.
100 Catties..		1 Pecul..	133	5	5 333	

All goods are weighed at China; likewise provision, as milk, fowls, hogs, &c.

In delivering a cargo, English weights and scales are used, and afterwards turned into China Peculs and Catties. If the weights and scales are brought from Canton, care should be taken that the beam is not longer on one side that the other; some of them have holes or notches at each end of the beam, by which they can, by hanging the scales in one or other, diminish or increase the weight considerably.

The weights are in generally light, particularly those they sell by, as have been found by weighing tutenague, raw silk, &c. Many of their dotchins are loaded in the pea Above all, it is particularly necessary to pay attention to the weighing man, who is very apt to jerk the scale down, or pull it to him before he cries the weight, and that often erroneous. If a person delivering a cargo, will take the trouble of putting in the weights himself, and balancing the scales, the benefit that will be derived by the cargo turning out well, will be an ample compensation for his trouble.

Gold and silver are also weighed by the Tale and Catty; 100 Tales are reckoned to weigh 120 oz. 16. dwts. troy, which make the tale equal to 579.84 grains.

The foregoing Weights are sometimes otherwise denominated by the natives; the Catty is called Gin; the Tale, Lyang; the Mace, Tchen; the Candarine, Fwen; and the Cash, Lis.

Gold is purchased in ingots of a determined weight, which the English call Shoes of Gold; the largest weigh ten Tales, and the gold is reckoned 94 Touch, though it may be only 92 or 93.

The Chinese arithmetic is mechanical To find the aggregate of numbers a machine is in universal use with all descriptions of people. By this machine, which is called a swanpan, arithmetical operations are rendered palpable. It consists of a frame of wood, about an inch deep, and of various sizes, from 4 to 12 inches long, by 2 to 6 broad, divided into two compartments by a bar down the middle through this bar at right angles are inserted a number of parallel wires, and on each wire; in one compartment are five moveable balls and in the other, two. These wires may be considered as the ascending and descending power of a numeration table, proceeding in a tenfold proportion, so that if a ball upon any of the wires in the larger compartment be placed against the middle bar, and called unity, or one: a ball on the next wire above it will represent ten; and one on the next, one hundred: so also, a ball on the wire next below that expressing unity, will be one-tenth; the next lower, one hundredth; and the balls on the corresponding wires in the smaller compartment will be five, fifty, five hundred, five-tenths, five hundredths five thousandths; the value or power of each of these in the smaller division, being always five times as much as those in the larger. This system, from its apparent ease and simplicity, is much admired, but is subject to error; and a person commonly conversant with arithmetic, will make more progress, and be more correct, than the most skilful of the Chinese with the swanpan.

MEASURES.—The long measure in use at Canton is called the covid or cobre: it is divided into ten punts, and is equal to 14.625 English inches. There are several measures answering to our foot.

	Eng. Inches
The Foot of the Mathematical Tribunal is equal to	13 125
The Builder's Foot, called Cougpu	12 7
The Tailors' and Tradesmen's Foot.....	13 33
The Foot used by Engineers.....	12 65

The Li contains 180 fathoms each of ten feet of the last mentioned length, which make the Li 1,897 English feet; and 19$\frac{1}{2}$ Lis measure a mean degree of the meridian, nearly: but the European Missionaries divide the degree into 200 Lis, each Li 1,826 English feet, which makes the degree 69 166 English miles.

6 It reduces Bazar Weight into Tons, &c.
7 It reduces Tons into Bazar Weight.
8 It reduces Factory Weight into Tons, &c.
9 It reduces Tons into Factory Weight.

THE TABLE, AND MULTIPLIERS TO BE USED WITH THE TABLE.

9	0007500000	1 For Interest Mult. by the Rate and Time.		
8	0006666666	2 For Curt. Rupees to Sicca, better done by the Pen.		
7	0005833333	3 For Sicca Rupees to Current ditto.		
6	0005000000	4 For Factory Wt. into Bazar Wt. Mt. by	1000	1-11
5	0004166666	5 For Bazar Weight into Factory Wt by	1320	
4	0003333333	6 For Bazar Weight into Tons ..... by	44	
3	0002500000	7 For Tons into Bazar Weight ..... by	30000	3 11
	0001666666	8 For Factory Weight into Tons .... by	40	
1	0000833333	9 For Tons into Factory Weight .... by	36000	

EXAMPLES.

1st. What is the Interest of 50000 Rupees for 6 months and 3 days at 6 per cent. per annum.

50000 × 6 × 6 months 3 days = 1830000

Multiply the Principal 50,000 by 6 the rate per cent. gives 300,000; and 300,000 by 6 months and 3 days, you get 1830000 for which collect from the Table.

Opposite	1 is	0000833,333
Ditto	8 is	000666,666
Ditto	3 is	00025,000

Answer, Rupees .. .. 1525.

Or divide 1830000 by 12 the quotient is 152500 and cutting off the two right hand figures the Answer is Rs. 1525 as before.

2d. To reduce Current Rupees into Sicca Rupees, is best done by the Pen, as the multiplier would be too great to be of any use with the Table.

By the Pen, suppose 10000 Current Rupees to be reduced to Sicca Rupees, Multiply by 25 and divided by 29.—thus $\frac{10000 \times 25}{29}$ = Sa. Rs, 8620 11 0 the answer required ....

2d. To reduce Sicca Rupees to Current Rupees—Multiply by 116 and cut off the two right hand figures, the product will be the Answer.

Thus 1000 × 116=1160,00 or 1160 Current Rupees the Answer

4th To reduce Factory Weight to Bazar Weight—Multiply by 1000, 1-11 and collect from the Table—Thus suppose 1000 Factory Maunds were required to be reduced to Bazar Maunds, &c.

1000 × 1000, 1-11=1090909,

Opposite	1 is	0000833.333
Ditto	9 is	00075,000
Ditto	9 is	000,750
Ditto	9 is	0.007
Answer Bazar Weight		909 090

Or thus by the Pen

Divide 10909.09 by 12 the Quotient 909 09 is the answer as before. Note; two figures must be always cut off to the right when dividing by 12

Or Bazar maunds....909 3sr. 10 chattacks

5th To reduce Bazar Maunds to Factory Weight—multiply by 1320 and collect from the Table. Thus suppose 1000 Bazar Maunds were required to be reduced to Factory Maunds, &c.

1000 Baz. Mds × 1320=1320000

Opposite	1 is	0000833 333
Ditto	3 is	000250 000
Ditto	2 is	00016,666
Answer Factory Maunds		1100

Or thus by the Pen, 132000, Divided by 12

Gives 110000 cut off the two right-hand figures the answer is 1100 Factory Maunds as before.

6th. To reduce Bazar Maunds into Tons multiply by 44 and collect from the Table. Thus suppose 1000 Bazar Maunds were to be reduced to Tons, &c

1000 × 44 = 44000

Opposite	4 is ...	00033.333
Ditto	4 is ..	0003 333
Answer Tons	....	36.666
Or 36 tons 13 cwt. 37½ lb		

Or thus by the Pen. 44000 Divided by 12 gives 3666.666 cut off the two right-hand figures and you get 36.666 or 36 Tons 13 cwt 37½ lb. the answer as before

7th To reduce tons to Bazar Maunds multiply by 30000, 3 11 and collect from the Table. Suppose 100 tons.

100 × 30000, 3-11=3272727,27, &c.

Opposite	3 is	0002500.000
Ditto	2 is	000166.666
Ditto	7 is	00058.333
Ditto	2 is	0001.666
Ditto	7 is	000,583
Ditto	2 is	00.016
Ditto	7 is	0.005
Answer Bazar Maunds		2727.279
Or 2727 10 seer 15 chattacks 5		

Or without the Table to save the addition

Divide 32727,279 by 12 gives 2727,272 or 2727 Bazar Maunds 10 sr. 15 ch.

8th. To reduce Factory Maunds into Tons, multiply by 40 and collect from the Table. Thus suppose 3000 Factory Maunds.

3000 × 40=120000

Opposite 1 is	000083.333	Or divide 1200.00 by 12 the answer is 100 tons as before.
Ditto 2 is	00016,666	
Answer Tons	100	

9th. To reduce Tons into Factory Maunds, &c. multiply by 36000 and collect from the Table. Thus suppose 100 Tons

100 × 36000 =	3600000	Or without the Table — Divide by 12 and you have
Opposite 3 is	0002500	36000.00
Ditto 6 is	000500	——— =3000 Factory Maunds.
		12
Answer Factory Mds.	3000	The Answer as before

It may be observed that in most instances the operation by the Pen, will be found much shorter than by any set of Tables whatever. But the object of Tables is not altogether the saving of time; they are intended rather as Checks on Calculations by the Pen, into which errors may sometimes creep. One Table only, has been used here for all the above different operations, in order to save the trouble of references to different Tables, which would take up more time, and the Tables more space. This has been effected by means of easy multipliers adopted for each subject. The Cyphers on the left hand of the figures in the Table are merely intended as guides to preserve at all times, the due number of places of figures to be taken out which must be always equal, including the Cyphers, to the number of places in the given product, with three places more to the right to answer for fractional party which is fully explained by the examples.

THOMAS WOODIN

Returns his grateful thanks to his Friends and the Public for the liberal support he has hitherto received, and begs to acquaint them that with a view to meet the increased demand for his Boats, and to afford greater facility and accommodation, T. Woodin has built several fine Teak Boats during the last year, and has now established an Office at Calcutta, where a number of Boats of different sizes and rates, will always be kept in readiness, but should they be all engaged at the time, and Gentlemen residing at the Presidency, (who may require Boats for two months certain,) T. Woodin will supply them from Dacca on the terms of the Calcutta Boat Offices, namely, no charge will be made for sending Boats down to the Metropolis, nor any thing for their return to Dacca. The hire to commence on the day of the Boat's arrival at Calcutta, and to cease on the day of her being discharged there.

T. Woodin trusts this accommodation will meet the approbation of those who have so liberally countenanced his endeavours, and he begs to assure them that he will be unremitting in his exertions to supply real good Boats and to afford every possible satisfaction. T. Woodin in soliciting a continuance of favour has to add that the Boats are built under his own immediate inspection of the very best Teak, and are constructed on a model to combine strength and safety with elegance and lightness, and are expressly adapted to go over shallows.

All applications for Boats at Calcutta, and other references, to be made there to Mr. William D'Monte Simaes, Agent for T. Woodin.

Names, Description and Dimensions of the Pinnaces and Bouleahs, the whole cooper bottomed, belonging to T. Woodin, of Dacca, with the rates of Hire.
